

PayPal Multicurrency

Configure extension settings from your Magento admin panel through:
You can configure fields as explained below.

- **Store → Configuration → Sales → Payment Methods : Configure PayPal Express Checkout**

The screenshot shows the configuration page for the PayPal Express Checkout extension in the Magento admin panel. On the left is a sidebar menu with categories like SALES, Checkout, and Payment Methods. The main content area is titled 'PayPal Express Checkout' and includes a 'Close' button. Below the title is a 'Configuration Details' section with a 'Required PayPal Settings' subsection. Under 'Express Checkout', there are several fields: 'Email Associated with PayPal Merchant Account (Optional)' with the value 'dipakpatil2618-facilitator@gmail.com', 'API Authentication Methods' set to 'API Signature', 'API Username', 'API Password', and 'API Signature' (all masked with dots), and 'Sandbox Mode' set to 'Yes'. There are also buttons for 'Get Credentials from PayPal' and 'Sandbox Credentials'.

- a) Add PayPal merchant detail
 - Email Associated with PayPal : <Merchant Email Email Associated with PayPal>

- API Username : <Merchant Api username>
- API Password : <Merchant Api password>
- API Signature : <Merchant API Signature>
- Sandbox Mode : Yes/No (As per environment)
