

# Most Viewed Products Extension Guide

We, at eTatvaSoft have developed the Most Viewed Products Widget Slider Extension for Magento 2 to display the most viewed product to the user.

We have provided this guide to understand better use of Most Viewed Products extension. We have tried to explain the basic functionality required by every Magento store for most viewed products slider.

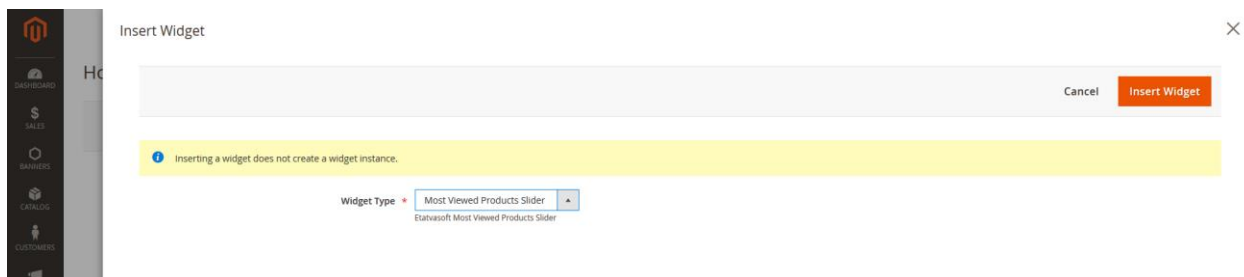

This extension is used to display most viewed products on your storefront. You can use it anywhere like the home page or any other pages so customers can view and buy it. Display most viewed products using block and widget.

## Every below steps helps to show most viewed products on your site

### Step 1: Add widget on page

Go to [Magento 2 Admin] > Login > Content > Elements > Pages > Add / Edit Page

Open “Content” > Click on “Show / Hide Editor” button > Click on “Insert Widget” button > Choose Widget Type as “Most Viewed Product” > Click on “Insert Widget” button

### Step 2: Check on Frontend

Clear cache from System > Tools > Cache Management if required.

Showing your most viewed products like below on storefront.
