## USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

## HOW TO CONFIGURE THE XML SITEMAP

At the back end, go to **FME EXTENSIONS > XML Sitemap Configurations**. Here you have to provide the following information:

### XML SITEMAP > CATEGORIES OPTIONS

- **Frequency:** Select frequency for category page updates. The option includes (Always, Hourly, Daily, Weekly, Monthly, Yearly and Never)
- **Priority:** Enter priority from the range (0.0 - 1.0), set higher priority for homepages, etc.

The screenshot shows the 'Configuration' page for the XML Sitemap extension. On the left, there is a navigation menu with 'CATALOG' and 'FME EXTENSIONS' sections. The 'XML Sitemap' option is selected under 'CATALOG'. The main content area is titled 'Categories Options' and contains two fields: 'Frequency [store view]' and 'Priority [store view]'. The 'Frequency' field is a dropdown menu with 'Always' selected. The 'Priority' field is a text input containing '0.5'. A 'Save Config' button is located in the top right corner.

Field	Value
Frequency [store view]	Always
Priority [store view]	0.5

## XML SITEMAP > PRODUCT OPTIONS

- **Frequency:** Select frequency for product page updates. The option includes (Always, Hourly, Daily, Weekly, Monthly, Yearly and Never)
- **Priority:** Enter priority from the range (0.0 - 1.0), set higher priority for homepages, etc.
- **Add Images into Sitemap:** This option will let you include images into the XML sitemap. Options include:
  - **None:** Images will not be included in the sitemap.
  - **Base:** Only based images will be included in the sitemap.
  - **All:** All images will be included in sitemap.

### Products Options
