

FME EXTENSIONS

EXTENSION FOR MAGENTO 2

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of [Advanced SEO Friendly Blog Extension](#) for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

HOW TO ADD CATEGORIES TO THE BLOG

At the backend go to [FME EXTENSIONS > Manage Categories](#). Here you will find all the categories for the extension. You can [Edit](#) any category or click on [Add New Category](#) button to proceed.

The screenshot displays the 'Manage Category' interface. At the top right, there is an orange button labeled 'Add New Category' with an orange arrow pointing to it. Below this is a table with the following data:

<input type="checkbox"/>	ID	Title	Url Key	Status	Action
<input type="checkbox"/>	1	Default Category	def-cat	Disable	Select ▲
<input type="checkbox"/>	2	World	world-news	Disable	Edit
<input type="checkbox"/>	3	Culture	culture-news	Disable	Delete
<input type="checkbox"/>	4	Tech news	tech-news	Disable	Select ▼

Here you have to provide the following information to create a category.

GENERAL FORM

- **Parent Category:** Make this a root category for another
- **Status:** Enable/Disable the Category
- **Category Name:** Provide category name
- **Category URL Key:** Provide category URL key
- **Meta Description:** Provide SEO Meta description for the category
- **Meta Keywords:** Provide SEO Meta keywords for category
