

FME EXTENSIONS

EXTENSION FOR MAGENTO 2

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users -managers, supervisors, and others of **Advance Quick Contact Us Form** Extension for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

After setting the configurations, click on THE **Save Config** button at the right top to save them.

HOW TO MANAGE THE FIELDS

Now at the backend go to **FME EXTENSIONS > Manage Fields**, you will see there a list of fields and a button "Add New Fields" to add new ones.

	Field ID	Label	Placeholder	Required	SortOrder	Created	Status	Action
<input type="checkbox"/>	1	Address	address	Yes	1	Feb 20, 2018 6:10:10 AM	Disable	Select ▲ Edit Delete
<input type="checkbox"/>	2	Description	description	Yes	2	Feb 20, 2018 6:10:10 AM	Disable	
<input type="checkbox"/>	17	privacy		Yes	0	Jul 29, 2019 11:05:16 AM	Enable	
<input type="checkbox"/>	18	Prova		Yes	0	Aug 21, 2019 1:16:52 PM	Enable	Select ▼

After clicking the **Add New Fields** button, a form will appear where you will have to choose the type of field which you want to include and set its properties as well.

ADD NEW FIELDS

Here you will see several field types like textbox, text area, dropdown, checkbox, radio button, upload file, multi-select, date. To add any of the field types in the form, click on that particular field and a button will appear named **Add New**. After clicking the button properties of the field will appear on the screen and you will have to set the properties like:

- **Enter Label:** Option to provide the label of the field to appear in the form
- **All Store views:** Option to select the store views on which field shall be visible
 - Main Website
 - Main Website Store
 - Default Store View
 - French View
 - Denmark View
 - Germany View
- **Enter placeholder:** Option to set the place holder of the field
- **Required:** Option to set the field as required OR not. By marking it as required, it will be mandatory for the user to answer the field
 - Yes
 - No
- **Field Type:** Option to set the field type as:
 - Text
 - Email
 - Number
- **Enter Sort Order:** Option to set the sort order of the field in the contact form
- **Remove:** A button to remove the field, if you want to remove it

Now the process of adding any of the fields and setting its properties is the same. Whichever field you want to include in the form just click on it, set its properties and lastly click on the **SAVE** button at the right top to save all the fields of the form.

HOW TO MANAGE THE SUBMISSIONS

Now at the backend go to **FME EXTENSIONS > Manage Submissions**. Here you will get all the information provided by your customers. You can always **Delete** or **Report** this information as per your requirement.
