## Getting Started!

### Overview

---

CSV based Pricing Extension from FME allows you to sell your variable sized products with respect to their measurements in length, width or height. You can create custom CSV file and upload it on the back end. When customers enter their measurements, CSV pricing extension validates the values in the matrix and calculates the price of the product.

### Extension Features

---

#### 2 Dimensional Pricing

- ✓ This 2 dimensional pricing extension allows your customers to enter their measurements in length, width or height.

#### Upload CSV File

- ✓ You can create a custom pricing sheet by entering data in the matrix of the CSV file and upload it to your website

#### Product Specific and Global Settings

- ✓ To optimize your store you can select single product or multiple products to attach with your CSV file from Global settings

#### Calculates in Fractions

- ✓ Customers can enter their measurements in fractions/decimals and this extension will calculate the precise price of the product

#### Five Measurement Units

- ✓ You can sell products of variable sizes with respect to their appropriate units such as meter, mm, cm, feet, and inches

#### Percentage Price

- ✓ By enabling this feature your product price is converted into percentage price by adding percentage of CSV to Base price

## User Guide

---

After installation of module, make sure the setup is upgraded and static-contents are deployed. Login to admin panel and flush you Magento cache storage.

# I. How to Configure the Extension:

Once logged in to the Admin Panel go to the “Configuration”. You can enter there from Admin Menu > Stores. Here you will have access to the following settings.

### General Setting:

1. **Enable in frontend:** Enable/Disable this extension.

### General Settings

Enable in frontend <small>[store view]</small>	Yes	▼
---	-----	---

### Basic:

1. **Column Label:** Set name for column i.e. Length, Height etc.
2. **Row Label:** Set name for row i.e. Width, Diameter etc.
3. **Measurement Unit:** Set measurement unit i.e. m, cm, mm, inches, feet etc.
4. **Price calculation in percentage:** Enable/Disable price calculation in percentage.

## Basic

Column Label  
[store view]

Example: **Height,Length**  
Option types supported: *Text Field*  
Make sure the same name is used in custom option

Row Label  
[store view]

Example: **Width,Diameter**  
Option types supported: *Text Field*  
Make sure the same name is used in custom option

Measurement Unit  
[store view]

Example: **m, cm, mm, inches, feet**

Price calculation in percentage  
[store view]

## II. How to Add New Product

### Step 1 – Add New Product:

To add new product, go to “Catalog”. You can enter “Catalog” from Admin Menu > Products. Click on “Add Product” there to add new product.

The screenshot shows the 'Catalog' page in a Magento admin interface. On the left is a sidebar with navigation options: DASHBOARD, PRODUCTS, FME EXTENSIONS, and STORES. The main content area has a header with 'Catalog', a notification bell with '17', and a user profile 'csvpricing-user'. Below the header is a large 'Add Product' button. Underneath are controls for 'Filters', 'Default View', and 'Columns'. A summary bar shows 'Actions', '2049 records found', '30 per page', and '1 of 69'. The main table lists products with columns for ID, Thumbnail, Name, Type, Attribute Set, SKU, Price, Quantity, Visibility, Status, Websites, and Action.

ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
21		Sprite Foam Yoga Brick	Simple Product	Gear	24-WG084	\$5.00	100.0000	Catalog, Search	Enabled	Main Website	Edit
46		Beginner's Yoga	Downloadable Product	Downloadable	24-LV04	\$6.00		Catalog, Search	Enabled	Main Website	Edit
15		Affirm Water Bottle	Simple Product	Gear	24-UG06	\$7.00	100.0000	Catalog, Search	Enabled	Main Website	Edit

## Step 2 – Add Product information:

The price is set as “\$34.00” which is the fixed based price of the product and will be added to the product irrespective in the changes in “Step 3”.

The screenshot shows the 'User Guide' product configuration page. The interface includes a sidebar with navigation options: DASHBOARD, PRODUCTS, FME EXTENSIONS, and STORES. The main content area has a header with 'User Guide', a 'Back' button, and 'Add Attribute' and 'Save' buttons. The form fields are as follows:

- Attribute Set: Bag
- Product Name \* [store view]: User Guide
- SKU \* [global]: 24-MB01
- Price \* [website]: \$ 34.00

There is a link for 'Advanced Pricing' below the Price field.

## Step 3 – Set Customizable Options:

You can add as many options and name them according to your requirements. For the purpose of this demo we have added the following options.

The screenshot shows the 'Customizable Options' configuration page. The interface includes a sidebar with navigation options: DASHBOARD, PRODUCTS, FME EXTENSIONS, and STORES. The main content area has a header with 'Customizable Options', a 'Back' button, and 'Import Options' and 'Add Option' buttons. Below the header, there is a description: 'Custom options let customers choose the product variations they want.' and a pagination indicator '1 of 1'. The form contains two option configurations:

- Length Option:**
  - Option Title \* [store view]: Length
  - Option Type \* [global]: Field
  - Required:
  - Price: \$ 0.00
  - Price Type: Fixed
  - SKU: [empty]
  - Max Characters: 0
- Width Option:**
  - Option Title \* [store view]: Width
  - Option Type \* [global]: Field
  - Required:
  - Price: \$ 0.00
  - Price Type: Fixed
  - SKU: [empty]
  - Max Characters: 0

Addon Text

Option Title \*  Option Type \*  Required

Price  Price Type  SKU  Max Characters

Test Drop

Option Title \*  Option Type \*  Required

Title	Price	Price Type	SKU
<input type="text" value="test"/>	<input type="text" value="\$ 10.00"/>	<input type="text" value="Fixed"/>	<input type="text"/>
<input type="text" value="test 2"/>	<input type="text" value="\$ 20.00"/>	<input type="text" value="Fixed"/>	<input type="text"/>
<input type="text" value="test 3"/>	<input type="text" value="\$ 30.00"/>	<input type="text" value="Fixed"/>	<input type="text"/>

### Step 4 – Frontend:

Now go to the frontend demo to check out your product. Here your customers will be able to change the fields and the quantity and get the price according to your presets.
