
Installation Guide

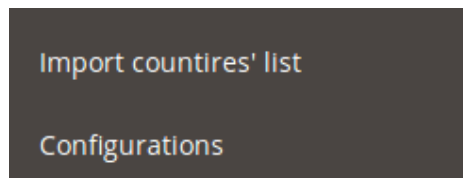

Geo-IP Default Language Currency can be installed by any of the following two Methods:

■ Method I:

1. Unzip `fme_geoipdefaultlanguage.zip` to a local folder.
2. Copy the full folder `local_folder/app/code/FME/Geoipdefaultlanguage` to `magento_root_directory/app/code/FME/`
3. Create a folder `geoipdefaultlanguage` in `magento_root_directory/pub/media`
4. Copy the provided `GeoIPCountryCSV` file and paste it to `geoipdefaultlanguage` folder. If you don't have `GeoIPCountryCSV` file, then skip step 4.
5. Go to your `_magento_directory/app/etc/`
6. Open `config.php` file from `etc` folder
7. Add below line in `$modules` array at the end

```
'FME_Geoipdefaultlanguage' => 1,
```
8. Now open console or shell window
9. Go to your magento directory and run the below command

```
php bin/magento setup:upgrade
```
10. Now logout from your admin panel and again login you will see FME Extensions Menu in Left Menu of your admin panel
11. Click on Import countries list sub menu

download the `GeoIPCountryCSV` file by clicking on [here link](#).

This Module uses MaxMind Country IP Database For GeoIP Information. MaxMind is very reliable and updates its database every month. You can download the latest database from [here](#) or copy the below URL into your browser
<http://geolite.maxmind.com/download/geoip/database/>

FME Extensions Geo IP Default Language Currency

After download, place *GeoIPCountryCSV* file in *magento_root_directory/pub/media/geoipdefaultlanguage*.

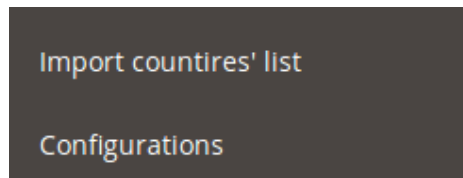

12. After successfully completing step 11, go to admin panel, choose **import countries list** submenu and click on **Import Database** Button.

ote: If you complete step 4 successfully then you don't need to follow step 11 and 12. Step 11 and 12 will be followed only if you skip step 4.

■ Method II:

1. Unzip *fme_geoipdefaultlanguage.zip* to a local folder
2. Copy the full folder *local_folder/app/code/FME/Geoipdefaultlanguage* to *your_magento_directory/app/code/FME*
3. Create a folder *geoipdefaultlanguage* in *magento_root_directory/pub/media*
4. Copy the provided *GeoIPCountryCSV* file and paste it to *geoipdefaultlanguage* folder. If you don't have *GeoIPCountryCSV* file, then skip step 4.
5. Now open console or shell
6. Go to your magento directory and run the below commands
 - i. `php bin/magento module:enable --clear-static-content FME_Geoipdefaultlanguage`
 - ii. `php bin/magento setup:upgrade`
7. Now logout from your admin panel and again login you will see FME Extensions Menu in Left Menu of your admin panel
8. Click on Import countries list submenu

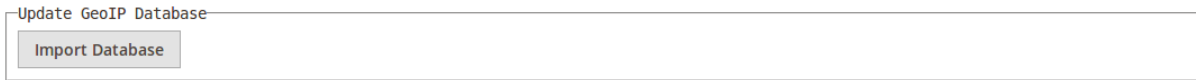

download the *GeoIPCountryCSV* file by clicking on the **here** link.
