Getting Started!

Overview

Store Locator extension uses Google Maps to display physical store locations. Locations are displayed on Google Map and in a List sorted by distance with the nearest appearing on top. The List of physical store has other details such as contact info and address. Users can search a store by its address or by a product. Directions to the nearest store are displayed.

Extension Features

Google Maps Store Locator

- ✓ Search for a Store Location
 - You can search by address, zip-code and the nearest store will be displayed on top. You can search a store by a product name. The stores that have the product will be displayed.
- ✓ Directions to the Store
 - Once you have found the nearest store location you can get the directions to the store by clicking on the Get Directions button.
- ✓ Unlimited Stores
 - You can add unlimited store locations with this extension. There is no limitation as far as the programming is concerned
- ✓ Map Marker
 - Upload a custom marker for your stores e.g an icon so the visitors can associate better knowing that the location is for your brand. You can upload a background image for the popup as well
- ✓ Search Results
 - Store preview, description and other details are displayed in search results
- ✓ Store Locator Page
 - ✓
 - Once the extension is installed a new page is created where the stores are listed and the map is displayed. The page URL can be sent from the admin.

Google Maps Store Locator

- ✓ Open Source
- ✓ Multi store support
- ✓ Easy Installation
- ✓ Responsive
