USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

HOW TO CONFIGURE THE EXTENSION

At the back end, go to **FME EXTENSIONS > Configurations**. Here You can find the following settings:

GENERAL SETTINGS

- **Enable in Frontend:** Option to Enable/Disable the module
- **Select Priority for Pricing Outer Level:** Drag and drop items up and down, to change the priority. By setting priority at this level means, one will be selected between Rules and Product page (tier or FME custom pricing) in case of conflict.
 - Product
 - Rule
- **Select Priority for Pricing Inner Level:** Drag and drop items up and down, to change the priority. By setting priority at this level means, which one will be selected in case of conflict at the product page *i.e.* if tier pricing, as well as custom pricing, is set on the product page so which one would be selected in that case.
 - Custom Pricing
 - Product Tier Pricing
