Getting Started!

Overview

Magento customer registration fields extension allows you to add custom fields to registration and accounts pages. You can set position of fields, restrict by customer groups and show / hide your custom fields on the front end. This extension supports custom input/output attributes such as File, Image, Text Field, Text Area, Date, Message Only, Drop Down, Multiple Select, Yes/No, Radio and check box.

Key Features

- 1. Registration & Account Page**
 - ✓ Add fields to Customer sign up page and account page with customer attributes Magento extension.
- 2. Multiple Field Types**
 - ✓ Ask customers anything you want by using multiple field types such as images, text fields, drop down, multi select and radio etc.
- 3. Restrict By Customer Groups**
 - ✓ While creating the additional custom fields you can restrict which customer groups can view these attributes
- 4. Set Field Position**
 - ✓ You can set the position of the additional field depending on the need and importance on the registration page
- 5. Input Validation**
 - ✓ This restricts the Customers to enter information in the fields according to the valid input type such as letters only, integers, decimal numbers and email etc.
- 6. Editable By Customer**
 - ✓ Customers can edit the information in their fields from 'MyAccount' section.

User Guide

After installation of module, make sure the setup is upgraded and static-contents are deployed. Login to admin panel and flush you Magento cache storage.

I. How to add new Registration Fields:

Step 1 – Go to Manage Fields:

At the backend go to “Manage Fields”. You can go there from FME Extensions > Customer Attributes. Click on “Add New Field” to continue.

Enable	Attribute Code	Attribute Label	Input Type	Show in Customer Grid	Required	Hide the field	Show on	Editable
Yes	favrt_author	Favorite Author	Text Field	Yes	Yes	No	Registration Page	Yes
Yes	hobbies	Hobbies	Text Field	No	No	No	Registration Page and Account Page	Yes

Step 2 – Fill the required information:

Here you will have to fill your required information. For the purpose of this demo we added the following information.

Field Information

Properties

Manage Label / Options

Edit Field "Hobbies" Back Reset Delete Field Save Field

Fields Properties

Enable	Yes
Attribute Code *	hobbies <small>▲ Must be unique and without spaces</small>
Input Type	Text Field
Input Validation	None
Position	0 <small>▲ Will Use this value to sort the fields</small>
Default value	
Hide the field	No <small>▲ Do you want to hide this field from customers once they have selected/entered any value. Admin can still see it.</small>
Values Required	No
Show on	Registration Page and Account Page
Editable by customers	Yes <small>▲ This will work if the field is not set as hidden.</small>
Store View *	All Store Views Main Website Madison Island English French German
Customer Group *	NOT LOGGED IN General Wholesale VIP Member Private Sales Member
Show in Customer Grid	Yes

Step 3 – Frontend:

Now at the frontend you will find your field as shown below. You can always go back and edit the information.

CUSTOMER ATTRIBUTES

Hobbies

Favorite Author * * *

Confirm Password *

[« Back](#)

SUBMIT

* Required Fields

II. How to Configure the Extension:

At the backend, go to FME Extensions > Customer Attributes > Settings. Here you will have access to the following configurations:

General:

- 1. Enable Customer Attributes**
- 2. Enter Heading for the Fieldset of Customer Attributes:** Heading will only be shown where fieldsets are used.

The screenshot shows the Magento Admin Backend configuration page for the 'Customer Attributes' extension. The breadcrumb trail is Dashboard > Customers > FME Extensions > System > Configuration. The current configuration scope is 'Default Config'. The page title is 'Customer Attributes'. The 'General' section is expanded, showing the following settings:

- Enable Customer Attributes:** Yes [STORE VIEW]
- Enter Heading for the Fieldset of Customer Attributes:** Customer Attributes [STORE VIEW]
- Heading will only be shown where fieldsets are used.**

Disclaimer

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.
