

Residential Delivery

What does Residential Delivery do?

This Residential Delivery extension for Magento2 allows admin to charge extra delivery fee for residential addresses.

General Configuration

- Log in to the admin Panel
- Go to **Store > Settings > Configuration > Folio 3 > Residential Delivery**

- Admin is required to click on the drop down and set value to **“Yes”**

Once the admin selects **“Yes”**, the Shipping Additional Charge Amount field will be displayed.

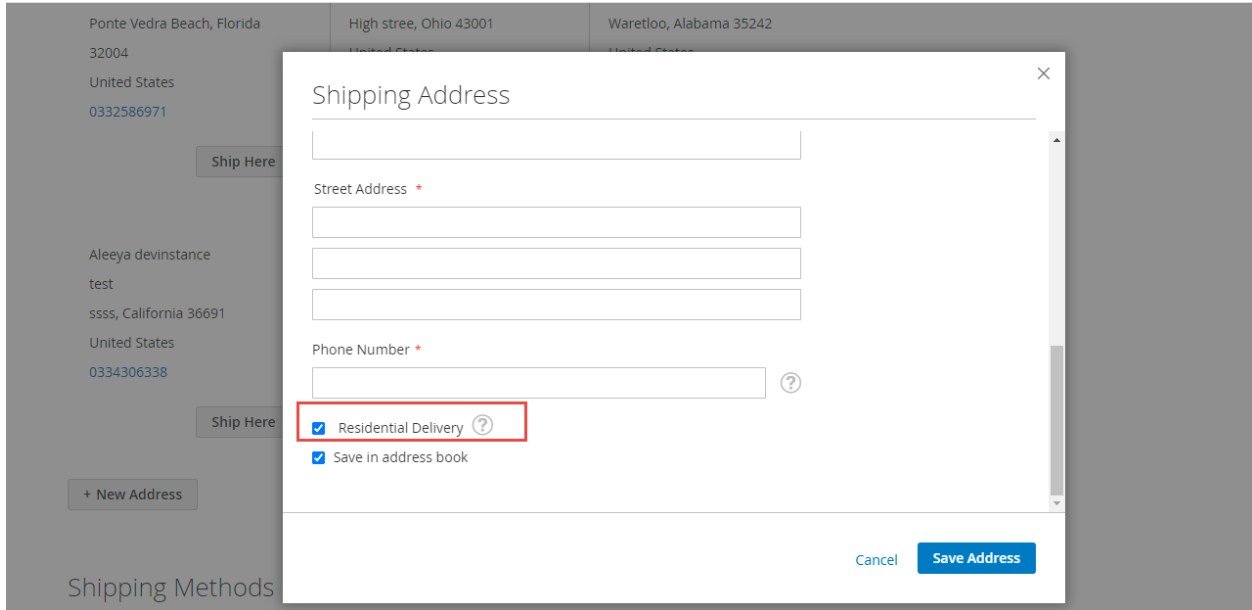

The screenshot shows the Magento 2 Configuration page for the 'Shipping' section. The 'Store View' is set to 'Default Config'. The 'Shipping' section is expanded, and the 'Residential Delivery' checkbox is checked. The 'Enable Shipping Additional Charge' dropdown is set to 'Yes'. The 'Shipping Additional Charge Amount' text input field contains the value '25'. A red arrow points to this field, which is highlighted with a green box containing the text 'Enter Shipping Additional Charge Amount here'. A 'Save Config' button is located in the top right corner of the configuration area.

- Admin is required to enter additional shipping charges (non-decimal values) here.
- Click Save Config.
- Flush Magento cache

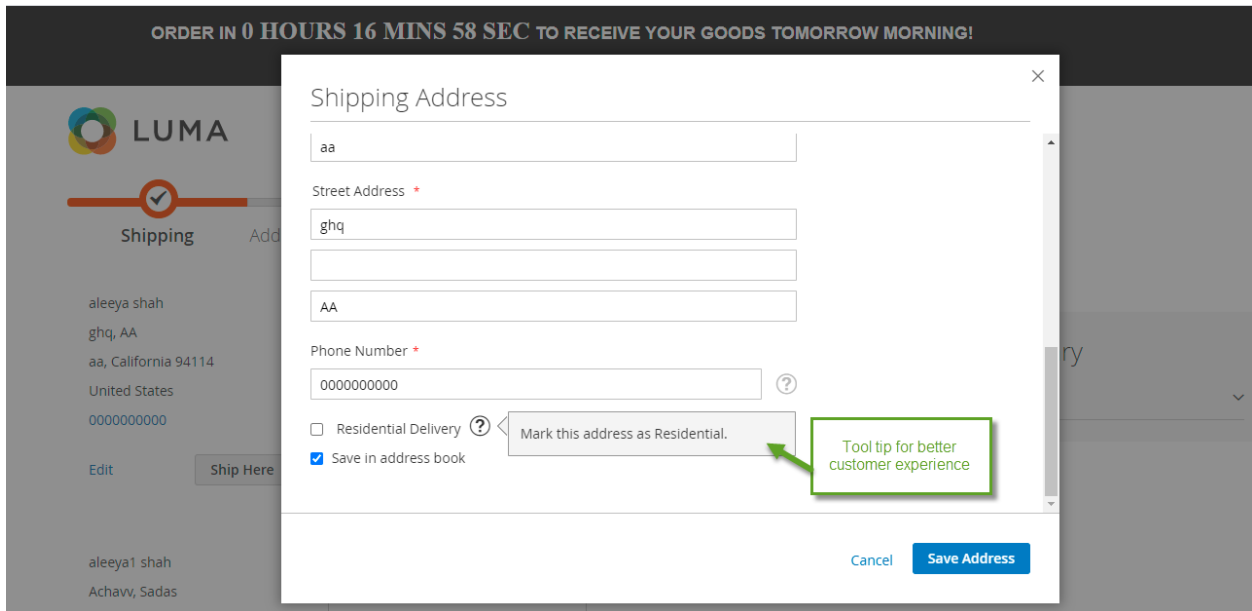

Shipping additional charge amount is configurable from admin panel, admin can enter any value and edit whenever he wishes.

How does Residential Delivery works?

When a customer marks the Residential Delivery checkbox on address pop up on checkout page, the additional shipping charges will be added to shipping cost for that particular shipping address.

- Customer is required to mark the Residential Delivery checkbox.
- Click Save Address
