

# INSTALLATION

## Connect: Xero (Magento 2)

Note: These instructions apply to installing an extension downloaded from Magento Marketplace only. If you downloaded the extension from the Fooman website, follow [these installation instructions](#) (for the monthly version) or [these installation instructions](#) (for the license purchase version) instead.

1. Download the extension through the [Magento Marketplace](#). Once complete, the extension will show in your account under My Purchases.

The screenshot shows the 'My Purchases' page on the Magento Marketplace. The page has a navigation bar with 'EXTENSIONS', 'THEMES', a search icon, a shopping cart icon, and the user name 'FOOMAN'. Below the navigation bar, there is a link to '< Back to My Account' and the heading 'My Purchases'. There are three tabs: 'Extensions' (selected), 'Themes', and 'Packages'. Below the tabs, there are two filters: 'All Platforms' and 'All Editions'. The main content area displays two extension cards. The first card is for 'Same Order Invoice Number' (version 2.0.3) and the second card is for 'Order Manager' (version 2.0.2). Both cards have a 'Download' button.

2. Create access keys in your Marketplace account (if you haven't done so already):

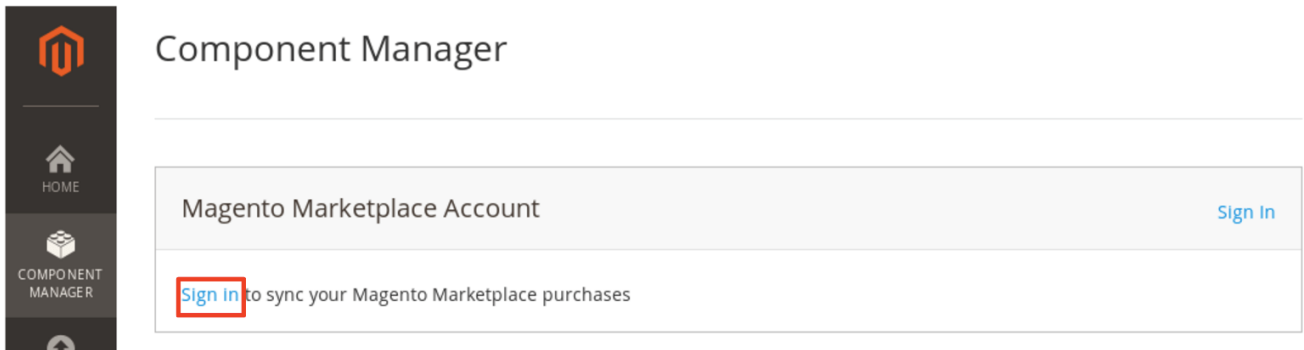

The screenshot shows the Magento Marketplace interface. On the left, the 'My Account' section has 'Marketplace' selected, and 'My Access Keys' is highlighted with a red box. The main content area is titled 'My Access Keys' and contains a table with one entry named 'Demo'. The 'Public Key' and 'Private Key' fields for the 'Demo' entry are highlighted with red boxes.

3. In your Magento store, head to System > Web Setup Wizard

The screenshot shows the Magento 'Tools' menu. The 'SYSTEM' category is selected, and the 'Web Setup Wizard' option is highlighted with a red box.

4. Choose the Component Manager and then hit "Sign In" (if not done prior) using the

Access Keys created for your Marketplace account.
