### Standard Magento Settings

The first six settings are standard Magento settings - configure these as per normal.

Be sure to enable automatic sales emails.

### Attach Invoice/Shipment/Credit Memo as Pdf (v1.0.0+)

When set to "Yes", your invoice/shipment/credit memo pdf document will be automatically attached to the order/invoice/shipment/credit memo email.

### Attach Order as Pdf (v1.0.0+)

You can also choose to automatically attach an order document to the order email. This requires the free Fooman Print Order Pdf extension - you'll need to install this first in order for this feature to be enabled: [Link to free download.](#)

### Attach Terms and Conditions (v1.0.0+)

When set to "Yes", your Terms and Conditions html and text files (from **Sales > Terms and Conditions**) will be automatically attached to the email.

# How to hook into the email sending process with events

If you write your own extensions, you can hook into the email sending process with the following events:

- fooman\_emailattachments\_before\_send\_order
- fooman\_emailattachments\_before\_send\_order\_comment
  
- fooman\_emailattachments\_before\_send\_invoice
- fooman\_emailattachments\_before\_send\_invoice\_comment
  
- fooman\_emailattachments\_before\_send\_shipment
- fooman\_emailattachments\_before\_send\_shipment\_comment
  
- fooman\_emailattachments\_before\_send\_creditmemo
- fooman\_emailattachments\_before\_send\_creditmemo\_comment

The dispatch call looks like this:

```
$this->eventManager->dispatch(  
  
    'fooman_emailattachments_before_send_order',  
  
    [  
  
        'attachment_container' => $this->attachmentContainer,  
  
        'order'                => $order  
    ]  
  
);
```

## Reporting Any Issues/Bugs

We are proud of our quality extension code - it's been widely tested and we stand by it 100%. If something does happen and you think you might be experiencing an issue or bug, please contact us via [support@fooman.co.nz](mailto:support@fooman.co.nz) and we will help you out.
