

# INSTALL INSTRUCTIONS

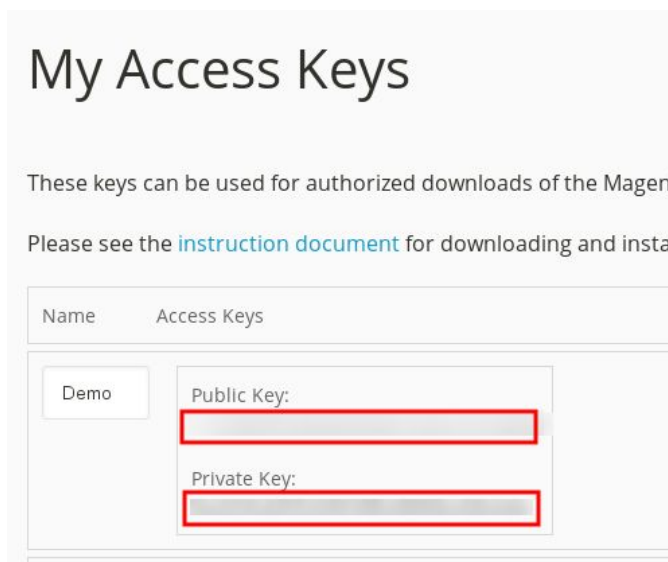

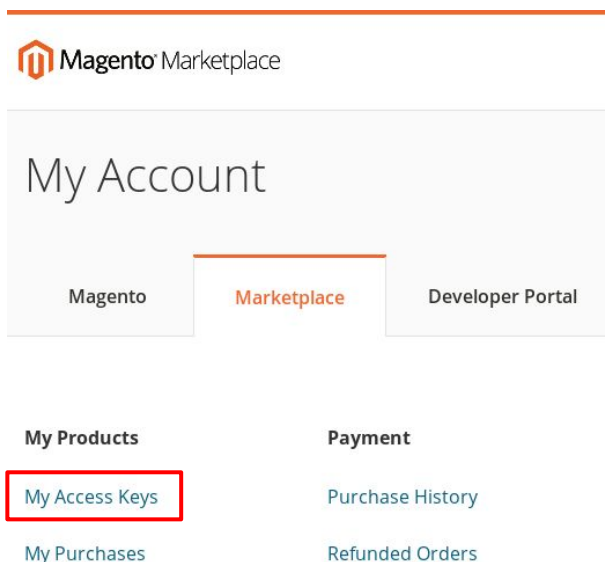

## Foومان Order Manager: Magento 2

### Installation of extension purchased from Magento Marketplace

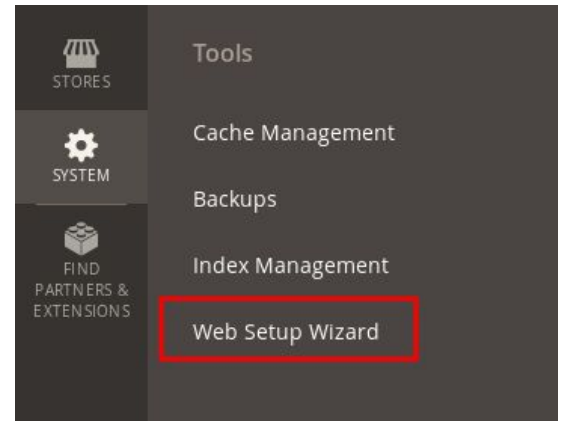

1. Purchase the extension through the [Magento Marketplace](#). Once complete the extension will show in your account under My Purchases.

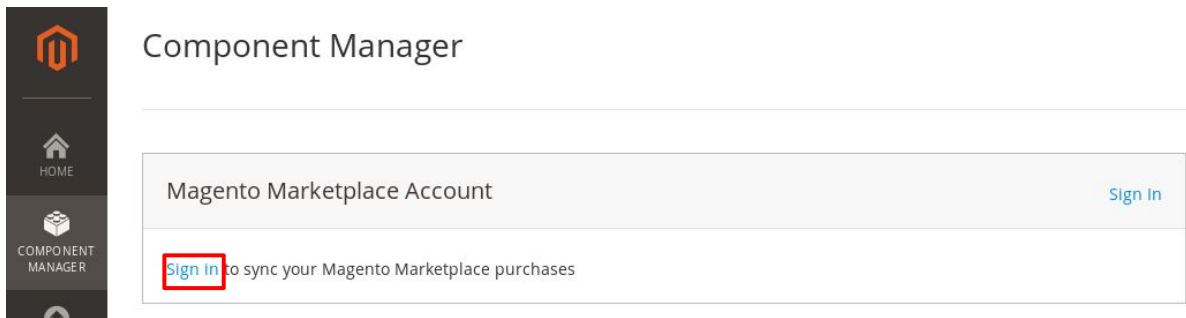

2. Create access keys in your Marketplace account (if you haven't done so already):

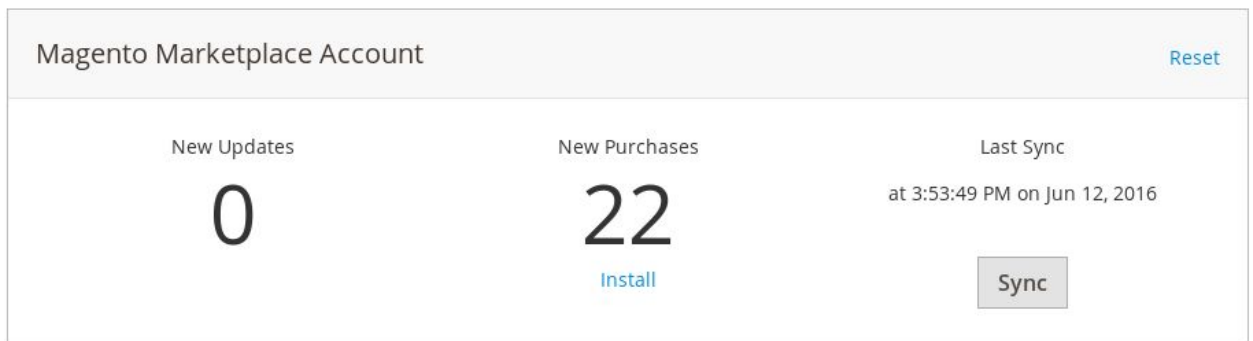

3. In your Magento store, head to  
System > Web Setup Wizard

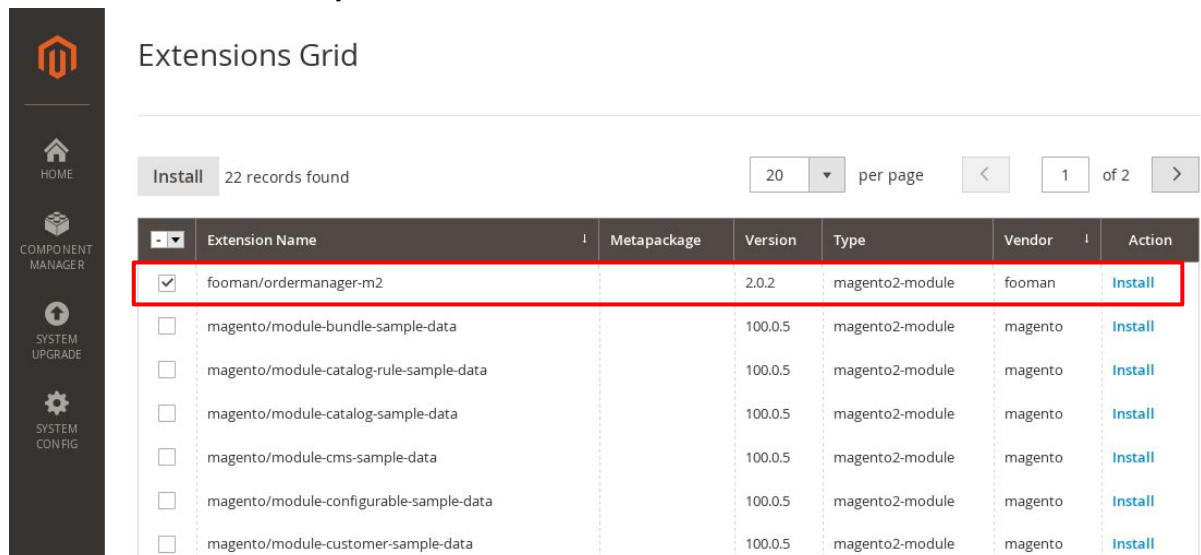

4. Choose the Component Manager and then hit “Sign In” (if not done prior) using the Access Keys created for your Marketplace account.

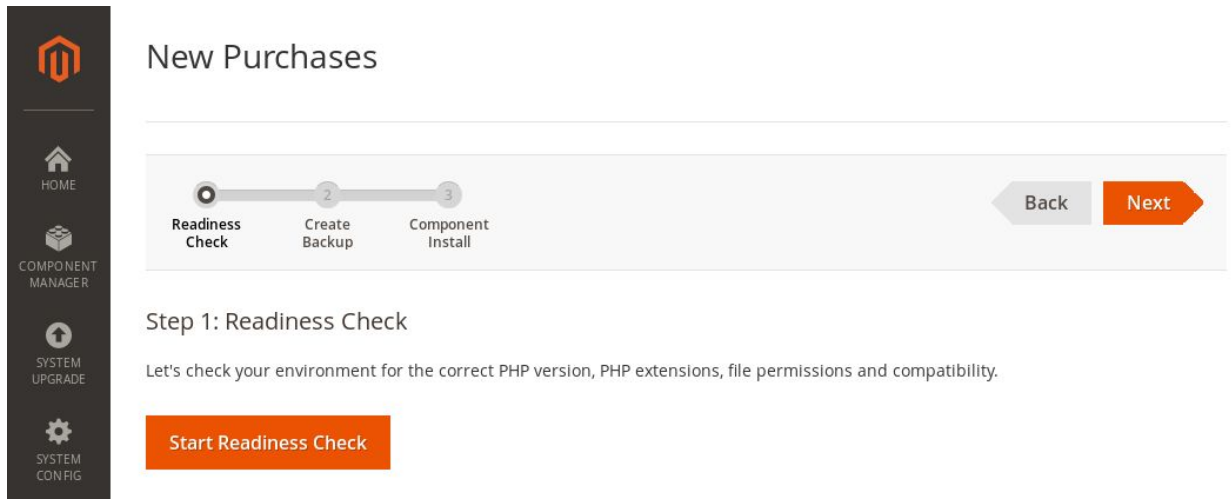

5. Use the Sync button if the last Sync was performed before the purchase of the extension.  
Next click “Install”.

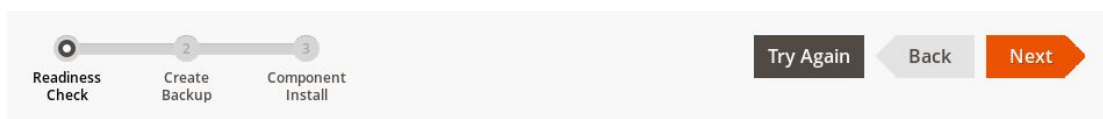

6. Select the extension/s you want to install and hit the Install button

7. Follow the 3 Steps of the Setup Process by using the Next buttons. Please refer to Magento's troubleshooting guide [here](#) if you encounter any errors.

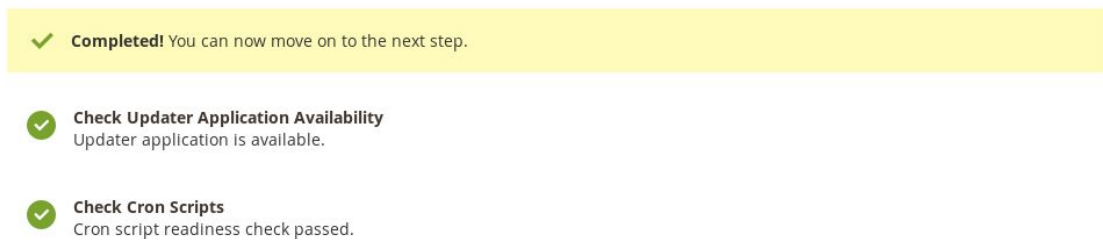

The screenshot shows the 'New Purchases' page with a sidebar on the left containing navigation options: HOME, COMPONENT MANAGER, SYSTEM UPGRADE, and SYSTEM CONFIG. The main content area features a progress bar with three steps: 'Readiness Check' (active), 'Create Backup', and 'Component Install'. Below the progress bar, the text reads 'Step 1: Readiness Check' and 'Let's check your environment for the correct PHP version, PHP extensions, file permissions and compatibility.' A prominent orange button labeled 'Start Readiness Check' is visible.

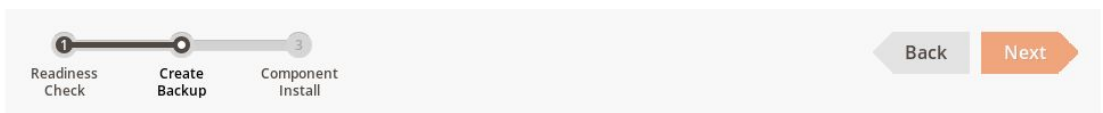

This screenshot shows the progress bar where the 'Readiness Check' step is now completed. The 'Next' button is highlighted in orange, and a 'Try Again' button is also present.

### Step 1: Readiness Check

A yellow banner displays a green checkmark and the text: 'Completed! You can now move on to the next step.' Below this, two items are listed with green checkmarks: 'Check Updater Application Availability' (Updater application is available) and 'Check Cron Scripts' (Cron script readiness check passed).

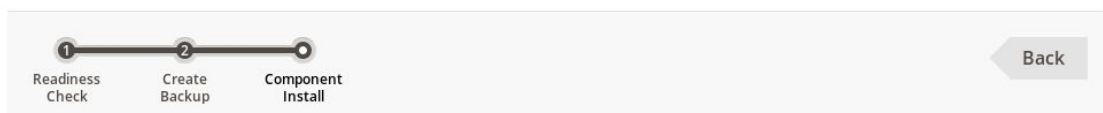

The progress bar now shows 'Create Backup' as the active step, with 'Readiness Check' and 'Component Install' completed. The 'Next' button is highlighted in orange.

### Step 2: Create Backup

- Backup Options
- Code
  - Media
  - Database

Hit the Install button and wait for the installation process to finish.

The progress bar shows 'Component Install' as the active step, with 'Readiness Check' and 'Create Backup' completed. A 'Back' button is visible on the right.

### Step 3: Component Install

A yellow banner with a warning icon contains the text: 'We will take your store offline to protect shoppers during the duration of the install activity.'

We're ready to install fooman/sameorderinvoicenummer-m2 to 2.0.5.

A prominent orange button labeled 'Install' is shown.
