

# How to Configure

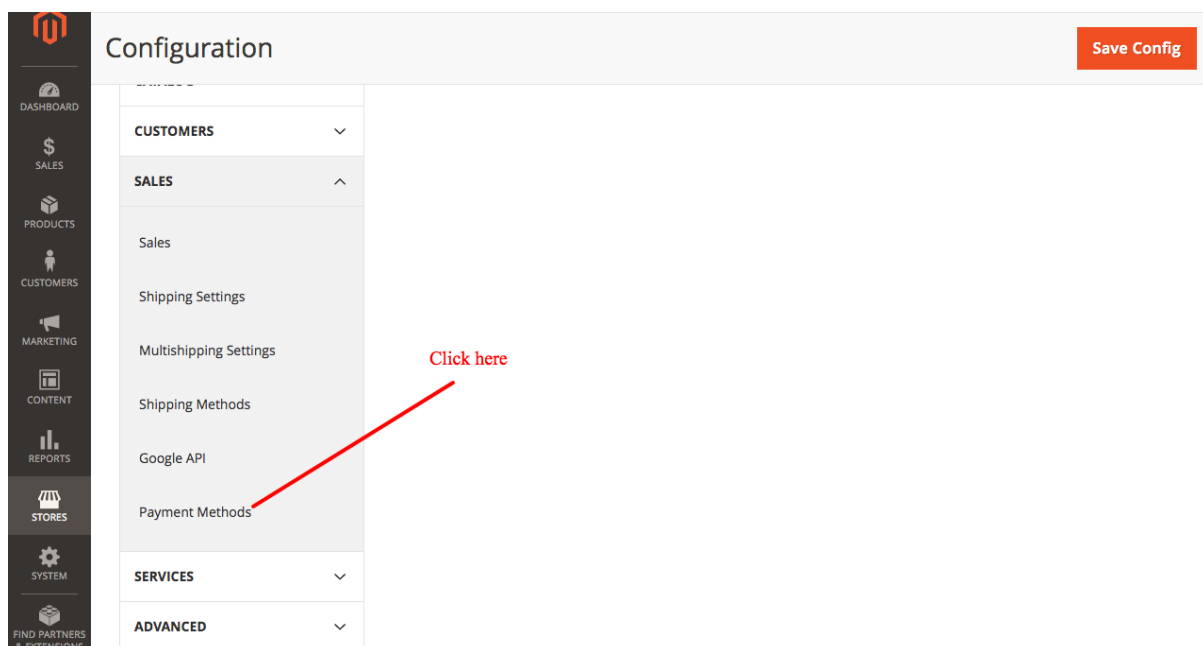

See the screenshots for each step below :

## Step 1

Click **Configuration** from your Store page inside Magento Dashboard.

## Step 2

Choose **Payment Methods** from the Sales dropdown menu on the **Configuration** page.

## Step 3

The screenshot shows the 'Configuration' page in the Shopify admin interface. On the left is a dark sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System. The main content area is titled 'Configuration' and has a 'Save Config' button in the top right. Under the 'SERVICES' and 'ADVANCED' tabs, the 'Cashfree' payment gateway is expanded. It contains several fields: 'Enabled' (set to 'Yes'), 'Title' (set to 'Cashfree'), 'Environment' (a dropdown menu with 'Test' selected and 'Prod' visible), 'App Id' (set to '2eks082msla010179nam'), and 'Secret Key' (masked with dots). Below these fields are three expandable sections: 'Check / Money Order', 'Bank Transfer Payment', and 'Purchase Order'. At the bottom of the browser window, three tabs are visible, each containing a 'shopifyStep' filename.

Enter your Cashfree Merchant App Id and Merchant Secret Key [Available on your Merchant Dashboard](#)
