# Installation

**Note:** It's recommended that you first install the Gr4vy module in a development Magento environment that is an exact copy of your live store. After you have verified everything is working properly on your development environment, you can safely install the module in your live environment.

## 1. Backup before installation

Backup your Magento store database and files before installing the module.

You can do this via SSH or via the account dashboard of your hosting provider.

## 2. Installation options

### 2.1 Installing the module manually

- Download the "Downloadable Package" Gr4vy module from your customer account, unzip it
- Use an SSH client to connect to your server and navigate to path `<web_root>/app/code` (**note:** the user should write permissions to this folder and its subfolders)
- Upload all the files and folders from the module zip file into the Magento root directory
- Via SSH, navigate to the root Magento folder and run the following command:

```
composer require gr4vy/gr4vy-php:v0.6.0
```

```
php bin/magento module:enable Gr4vy_Magento
```

### 2.2 Installing the module via Composer

The module can be installed by running the command below in the Magento root directory:

```
composer require gr4vy/magento
```

### 3. Setup and Deployment

Execute the below commands in the Magento root directory to complete setup and full deployment:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento cache:flush
```

```
php bin/magento setup:static-content:deploy
```

# Gr4vy Module Configuration

Within your Magento admin, you can access the Gr4vy module configuration by going to:

**Stores > Settings > Configuration > Sales > Payment Methods > Gr4vy**

<b>Enabled</b> <small>[store view]</small>	Yes	<b>1</b>
<b>Display Type</b> <small>[store view]</small>	Gr4vy Web Checkout	<b>2</b>

<b>Sort Order</b> <small>[store view]</small>	1	<b>13</b>

1. Enable or disable the Gr4vy payment method
2. Specify how the Gr4vy payment method appears on frontend
3. Add your Gr4vy ID you received after your registration with Gr4vy
4. Click on the "Choose File" button and select the private key obtained from Gr4vy account dashboard
5. Choose the current appropriate environment setting
6. Enable or disable debug. The output can be found in **<webroot\_dir>/var/log/gr4vy\_debug.log**
7. Select the payment action type
8. Specify a title for the Gr4vy Payment method on the checkout page and the order view page
9. Add a description below the Gr4vy payment method title on the checkout page (or leave it blank)
10. Specify the status of new orders processed via Gr4vy
- 11,12. Limit the Gr4vy payment method by countries
13. Sort the order of the Gr4vy payment method on the checkout page

# Frontend specifications

## 1. Checkout page

Once the Gr4vy module is installed and configured, you should see the Gr4vy payment method listed in the Payment Method section on the checkout page.

# Magento Admin (Backend) Specifications

## 1. Payment information

Gr4vy transaction information can be found in the order edit page in the Magento admin by going to:

**Sales > Orders > [Select Order]**

Information such as transaction id, transaction status, amount of transaction, currency etc are presented in the **Payment Information** section:

### Payment & Shipping Method

#### Payment Information

Gr4vy

Credit Card Type:	N/A
Last Transaction ID:	4a26bcc2-2f4b-4330-ad90-71394fde31a9
Status:	Authorization Succeeded
Amount:	\$45.00
Captured Amount:	0.00
Refunded Amount:	0.00
Currency:	USD

The order was placed using USD.

#### Shipping & Handling Information

Flat Rate - Fixed \$5.00

### Items Ordered

Product	Item Status	Original Price	Price	Qty	Subtotal	Tax Amount	Tax Percent	Discount Amou
Rival Field Messenger SKU: 24-MB06	Ordered	\$45.00	\$45.00	Ordered 1	\$45.00	\$0.00	0%	\$0.00

## 2. Capture payment online

The admin user can capture an Authorized transaction by creating a new invoice for the order.

To do this, go to:

**Sales > Orders > [Select Order]** and click the **Invoice** link

Select the **Capture Online** option under the **Amount** heading.

Finally, click the **[Submit Invoice]** button to capture the payment.

**Note:** Capture Online is not available if the Gr4vy **Payment Action** configuration is set to **Authorize and Capture**

---

### Invoice Totals

Shipping & Handling	\$5.00
<b>Grand Total</b>	<b>\$24.00</b>

#### Amount

Capture Online ▼

Append Comments

Email Copy of Invoice

Submit Invoice

### 3. Refund payment

To perform an online refund, go to the edit page of the invoice you want to refund, via either of these routes:

**Sales > Invoices > [Select Invoice]** and click on the **[Credit Memo]** button

**Sales > Orders > [Select Order]**, click on the **Invoices** tab, **[Select Invoice]** and finally, click on the **[Credit Memo]** button

On the refund page, there are two action buttons available:

#### 1. [Refund Offline]

This option won't trigger a refund transaction in Gr4vy, only in Magento

#### 2. [Refund]

This option will instruct Gr4vy to refund the captured transaction amount to the customer's account

---

### Refund Totals

Subtotal	\$34.00
Refund Shipping	5.00
Adjustment Refund	0.00
Adjustment Fee	0.00
<b>Grand Total</b>	<b>\$39.00</b>

Append Comments

Email Copy of Credit Memo

## 4. Order comments history

Transaction information is appended to the order comments history section within the order view page whenever a customer submits a transaction, or when an admin user performs a payment capture or a transaction refund request.

There are four types of transactional information, see examples below:

1. Authorization message from Magento
2. Authorization message from Gr4vy, with transaction ID
3. Capture message from Gr4vy
4. Refund message from Gr4vy
