

# H&O Magento 2 Nederlandse vertalingen / Dutch Translations

---

- Complete translations for Magento 2.x CE and EE.
- Added Dutch [address formatting](#)

## Installation through Marketplace

---

As H&O extensions are offered in the official Magento® Marketplace you can directly install them via the Magento® 2 backend. Magento® did a great job simplifying this process, they also provided a really good documentation. Please read the official documentation for installing extensions over the marketplace.

<https://marketplace.magento.com/>

<http://devdocs.magento.com/guides/v2.0/comp-mgr/module-man/compman-start.html>

## Installation through composer

---

```
composer require honl/magento2-nl-nl
```

### Development install:

```
composer require honl/magento2-nl-nl "dev-master"
```

## Contributing

---

Go to <https://crowdin.com/project/magento-2/nl#/Head> and translate files.

Import translations:

```
curl http://107.170.242.99/build.php cd vendor/honl/magento2-nl-nl wget -O nl_NL.csv http://107.170.242.99/var/Head/source_nl_NL.csv git commit -am"Imported translations from crowdin" git push
```

## How are translations files loaded

---

In the file `Magento\Framework\App\Language\Dictionary::readPackCsv` all `*.csv` files are loaded, no specific filename required.
