ika Running Short-32-Purple	Simple Product	WSH12-32-Purple	Women / Bottoms / Shorts Erin Recommends			

## How to use extension

Extension inherited all general mass actions work flow. You have to select checkboxes in first column of product grid table for products which you would like to proceed, then select required mass action and click Submit.

Mass Products Relater has 9 predefined custom mass products actions which helps you to speed up management of relations between products in your product catalog:

- Save Changes
- Related: To Each Other
- Related: Add..
- Related: Clear

- Up-sell: To Each Other
- Up-sell: Add..
- Up-sell: Clear
- Cross-sell: Add..
- Cross-sell: Clear

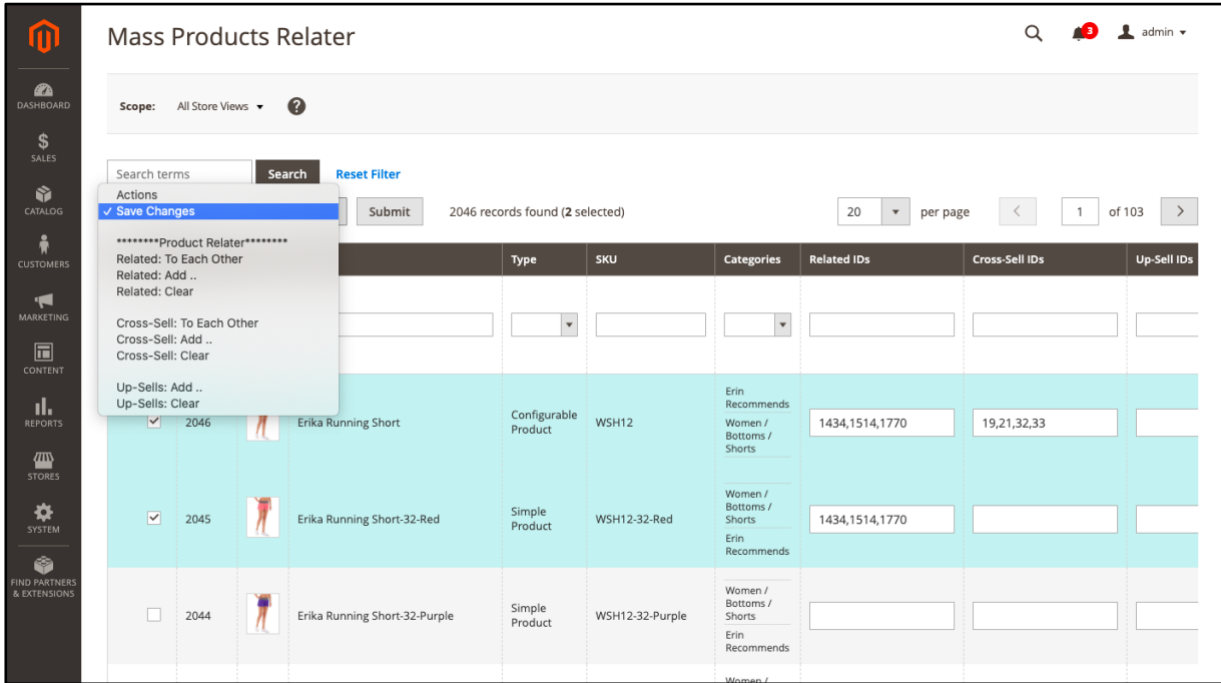

Extension has 3 editable columns right in product grid:

- Related ID's
- Cross-Sell ID's
- Up-Sell ID's

### «Save Changes» mass action

Those 3 column allows you to specify what products should be linked to each particular products. To do it you have to:

1. Specify product ID's in required column's for required products, which shown as rows in product grid.
2. Select checkboxes in first column for products, which should be updated
3. Select «**Save Changes**» mass action from mass actions dropdown
4. Click «**Submit**». So extension will take all data from product grid and apply for all selected products.

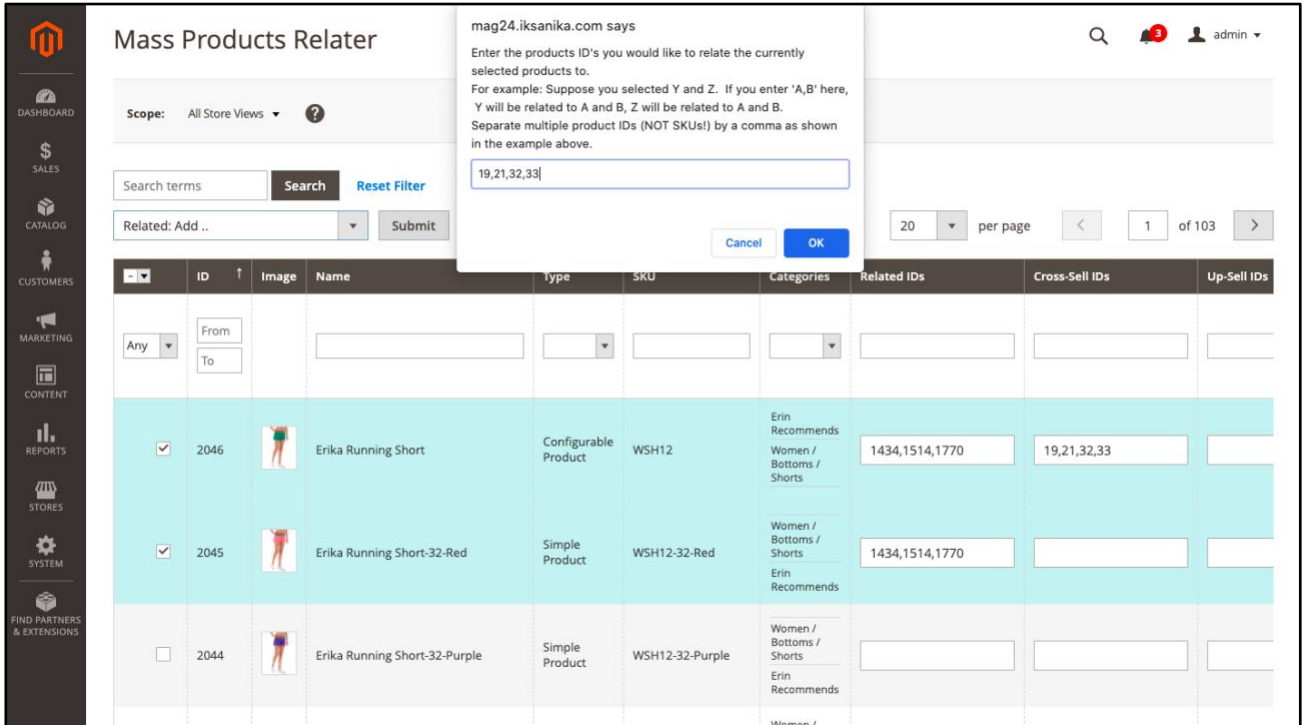

«Update» mass action is good when you need specify different list of products for each particular product.

If you need to apply same products links to list of products, you have to use others mass products actions.

«Related: Add..», «Cross-Sell: Add..», «Up-Sell: Add..»

It allows you to add specified by you products links to selected list of products from products grid. So to use this mass actions you have to:

1. Select checkboxes from product grid for products to which you would like to apply new products links
2. Select appropriate «Add..» action
3. Click «Submit»
4. Popup window will appear with request to specify products IDs which will be linked to selected list of products. So you have to specify list of product with comma separator in case of multiple products.
5. By clicking «Ok» extension will save all specified changes.

«**Related: Clear**», «**Cross-Sell: Clear**», «**Up-Sell: Clear**»

Those mass actions allow you to remove all products links for selected list of products. To proceed it you have to:

1. Select checkboxes for required products in first column
2. Select appropriate «**Clear**» mass action in mass actions dropdown
3. Click «**Submit**».

«**Related: To Each Other**», «**Cross-Sell: To Each Other**»

Those mass actions allow you create links between all selected products, so you don't need to specify products links for each particular product – extension will do it for you automatically. To proceed it you have to:

1. Select checkboxes in first column for required list of products
2. Select appropriate «**To Each Other**» mass action from mass actions drop down
3. Click «**Submit**».
