«Save Changes» mass action	4
«Update: Qty»	5
«Update: Is In Stock»	5
Quantity Relative Value	6

## Stock Inventory Manager location

After installing you can find extension working space under «**Products**» > «**Stock Inventory Manager**» menu item.

The screenshot shows the Magento 2 admin interface. On the left, a sidebar menu is open, highlighting the 'Stock Inventory Manager' option under the 'CATALOG' section. The main content area displays a product grid table with the following columns: Name, Type, SKU, Categories, Quantity, and Is in stock. The table shows several product entries, including 'Iksanika Running Short' (Configurable Product) and 'Iksanika Running Short-32-Red' (Simple Product). The 'Quantity' and 'Is in stock' columns are highlighted, indicating they are editable.

Name	Type	SKU	Categories	Quantity	Is in stock
Iksanika Running Short	Configurable Product	WSH12	Erin Recommends Women / Bottoms / Shorts	0	Yes
Iksanika Running Short-32-Red	Simple Product	WSH12-32-Red	Women / Bottoms / Shorts Erin Recommends	100	Yes
Iksanika Running Short-32-Purple	Simple Product	WSH12-32-Purple	Women / Bottoms / Shorts Erin Recommends	100	Yes
Iksanika Running Short-32-Green	Simple Product	WSH12-32-Green	Women / Bottoms / Shorts Erin Recommends	100	Yes

## How to use extension

Extension inherited all general mass actions work flow of Magento 2. You have to select checkboxes in the first column of the products grid table for products which you would like to proceed, then select required mass action and click Submit.

Stock Inventory Manager has 3 predefined custom mass products actions which help you to speed up the management of relations between products in your product catalog:

- Save Changes
- Update: Qty
- Related: Is In Stock

Extension has 2 editable columns right in products grid: «Quantity» and «Is In Stock»

## «Save Changes» mass action

Those 2 columns allow you to specify Inventory level («Quantity» column) and Stock status («Is In Stock» column) for each particular product in product grid. To do it you have to:

1. Specify new Inventory level («Quantity» column) and/or Stock status («Is In Stock» column) for required products, which shown as rows in products grid
2. Select checkboxes in first column for products, which should be updated
3. Select «Save Changes» mass action from mass actions dropdown
4. Click «Submit». So extension will take all data from product grid and apply for all selected products.

The screenshot displays the 'Stock Inventory Manager' interface. At the top, there is a search bar and a 'Scope: All Store Views' dropdown. Below this, a search filter is active, showing '2046 records found (3 selected)'. A dropdown menu is open over the 'Actions' column, listing 'Save Changes' (selected), 'Update: Qty', and 'Update: Is In Stock'. The main table shows a list of products with columns for Name, Type, SKU, Categories, Quantity, Is in stock, Status, Websites, and Edit. Three products are selected, indicated by checkboxes in the first column.

	Name	Type	SKU	Categories	Quantity	Is in stock	Status	Websites	Edit
<input type="checkbox"/>	Erika Running Short	Configurable Product	WSH12	Erin Recommends Women / Bottoms / Shorts	0	Yes	Enabled	Main Website	Edit
<input checked="" type="checkbox"/>	Erika Running Short-32-Red	Simple Product	WSH12-32-Red	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit
<input checked="" type="checkbox"/>	Erika Running Short-32-Purple	Simple Product	WSH12-32-Purple	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit
<input checked="" type="checkbox"/>	Erika Running Short-32-Green	Simple Product	WSH12-32-Green	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit

«Save Changes» mass action is good when you need specify different values of «Quantity» and/or «Is In Stock» columns for each particular product for list of products.

If you need to apply same values of «Quantity» or «Is In Stock» to list of products, you have to use «Update: Quantity» or «Update: Is In Stock» mass products actions.

## «Update: Qty»

It allows you to apply same «Quantity» value to selected list of products from products grid. To use this mass products action you have to:

1. Select checkboxes from products grid for products to which you would like to apply new «Quantity» value
2. Select «Update: Qty» mass products action from mass products actions drop down
3. Specify new «Quantity» value in «Qty» input field
4. Click «Submit»

The screenshot shows the Stock Inventory Manager interface. At the top, there is a search bar and a scope selector set to 'All Store Views'. Below that, there is a search filter section with a search bar and a 'Reset Filter' button. The main area displays a table of products with columns for ID, Image, Name, Type, SKU, Categories, Quantity, Is In stock, Status, Websites, and Edit. The table shows four rows of products, with the last three rows selected (checked). The 'Update: Qty' mass product action is selected in the top left of the table, and the 'Qty' input field is set to 100. The 'Submit' button is visible. The table data is as follows:

ID	Image	Name	Type	SKU	Categories	Quantity	Is In stock	Status	Websites	Edit
2046		Erika Running Short	Configurable Product	WSH12	Erin Recommends Women / Bottoms / Shorts	0	Yes	Enabled	Main Website	Edit
2045		Erika Running Short-32-Red	Simple Product	WSH12-32-Red	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit
2044		Erika Running Short-32-Purple	Simple Product	WSH12-32-Purple	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit
2043		Erika Running Short-32-Green	Simple Product	WSH12-32-Green	Women / Bottoms / Shorts Erin Recommends	100	Yes	Enabled	Main Website	Edit

## «Update: Is In Stock»

It allows you to apply same «Is In Stock» value to selected list of products from products grid. To use this mass products action you have to:

1. Select checkboxes from products grid for products to which you would like to apply new «Is In Stock» value
2. Select «Update: Is In Stock» mass products action from mass products actions drop down
3. Specify new «Is In Stock» value in «Is In Stock» drop down option
4. Click «Submit»

## Quantity Relative Value

Extension allow you to use Absolute and Relative values for «Quantity» products grid column and for «Update: Qty» mass action.

Absolute values – it is standard numeric values you use in default Magento 2 product edit mode to describe how many items of particular product you have.

Relative values – it is values -, + and \* special symbols followed by digits. If extension will identify such value it will load current «Quantity» value of the product and will *subtract*, *add* or *multiply* this value specified in product grid for this particular product. For example, right now you have 5 items in stock of selected product and you receive new products items into stock in amount of 55, as result you can just put +55 into editable «Quantity» field and Stock Inventory Manager will automatically recalculate and save 60 as final result.

### Stock Inventory Manager
