

# MAGENTO 1 INSTALLATION

Follow these simple steps to install your extension from IWD. Please note that [installing IWD\\_ALL](#) is required before installing your purchased extension.

Also please do not use 7zip software to unpack the .tgz package if you decide to install the extension via FTP.

1. Log-in to your Magento Admin Panel
2. Go to System -> Magento Connect -> Magento Connect Manager
3. Enter your Magento username and password for the Magento Connect Manager
4. Select the Choose File button under the 'Direct package file upload' section
5. Locate and select the extension file on your computer and click Upload
  - The extension file will be included in your order's confirmation email
  - You can also download the file by logging into your customer account at IWD Extensions and going to the [My Downloadable Products](#) section
6. Click on the Return to Admin button
7. Go to System -> Cache Management and click the Flush Magento Cache button
8. Finally, log-out and log back into your Admin panel to complete the installation process
