

# Kash Payment Gateway: User Guide

## Setting up the Payment Method

1. Go to the Admin Panel for your Magento store
2. Using the menu sidebar, go to Stores > Configuration, then in the left menu, select Payment Methods under the Sales category
3. Click on the *Kash Gateway* section under “Other Payment Methods” to expand the configuration
4. Use the following settings

The screenshot shows the Magento Admin Panel Configuration page for the Kash Gateway payment method. The left sidebar contains navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled "Configuration" and has a left-hand menu with options: Shipping Settings, Multishipping Settings, Shipping Methods, Google API, Payment Methods (selected), SERVICES, and ADVANCED. The right-hand panel is titled "OTHER PAYMENT METHODS: ▲" and lists several payment methods: Check / Money Order, Bank Transfer Payment, Cash On Delivery Payment, Zero Subtotal Checkout, and Kash Gateway (selected). The Kash Gateway configuration form includes the following fields:

- Enabled** (store view): Yes (dropdown)
- Title** (store view): Direct Debit (Instant 4% Off) (text input)  
This controls the title that the user sees during checkout
- Shop Name** (store view): Kash Magento (text input)
- Kash Account ID** (store view): c48c15ae-9bc5-40f1-9241-69d61a6cc19b (text input)  
This is the account ID you get from your Kash account
- Kash Server Key** (store view): sk\_dev\_f6c2f654231b917bf1a551d9642705b5 (text input)  
This is the server key you get from your Kash account
- Minimum Order Total** (store view): (text input)
- Maximum Order Total** (store view): (text input)
- Test Mode** (store view): No (dropdown)
- Test Key** (store view): (text input)  
Required for test mode

-- Enabled: Yes

-- Shop Name: {the name of your store}

-- Title: {what to call the payment method, ex. Direct Debit (1% Off)}

-- Kash Account ID: {your account id from Kash Dashboard > Settings}

-- Kash Server Key: {your server key from Kash Dashboard > Settings}

-- Test mode: No

### **Account ID / Server Key**

Create your Kash account at <https://dashboard.withkash.com/>. You can get your Kash Account ID and Server key from your Kash Dashboard, under Settings. The *COPY* button will copy the value to your clipboard to make it easier to enter it into your Magento Admin Panel.

**\* Before you can process transactions through the Kash Payment method, we will need to contact you to activate your account.**

Kash Account Information

Use the following values to configure your Kash Payment integrations.

Account ID

8c5ed55f-070d-45de-afcd-a25ca08e52a0 COPY

Server Key

sk\_test\_36b6b2aeaf6f1be533ab1984fa9d3158 COPY

1. Click the **Save Config** button to finish the setup

### Test Mode

Test Mode allows you to use this payment method in your store using simulated Direct Debit authorization without actually capturing the payment. Enabling this means orders can be completed without receiving payment. We do not recommend enabling this mode unless you are an Magento expert and are troubleshooting an installation. Please contact [support@withkash.com](mailto:support@withkash.com) for test keys.

**Congrats!**

You have completed installing Kash Direct Debit on your Magento store
