

Extension User Guide

About This Extension:

This extension allows both customers and guest to sign up for alerts once price of drop.

It adds a Notify button into product detail page for price alert of products. By clicking on this button, registered members & guests can enter their email to receive notifications when products price change. When admin chnge price for a product, the system will send an email notification to customers who subscribed to that product. This extension helps store owners in price decision making about products based on subscriptions.

Features:

- Notifies all the subscribed customers for their subscribed product once their price drop.
- Allows user to enter Email Id for products.
- Ajax request and response functionality for subscription and notification.
- Customer group will be given high priority in compare with individual customer.
- Admin can delete the customer from the subscription list.
- Admin can see the list of subscribed customers, and can filter the subscriber product wise at Magento backend.
- 24x7x365 technical support is available with seamless communication.
- Includes magneto's best functionality features.

Installation:

It is recommended creating a backup of your site before installing any new extension, especially if it is a live site.
