

Sofort User Guide for v1.0.0

Installation

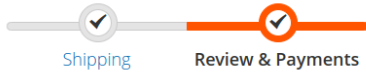

Please see <https://devdocs.magento.com/extensions/install/>

Overview

Just enable it in the settings by activating it and providing your configuration key.

The screenshot shows the Magento 2 Configuration interface for the Klarna Sofort payment method. The left sidebar contains navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Blogs, System, and Partners & Extensions. The main content area is titled 'Configuration' and shows the 'Klarna Sofort' settings. The 'Enable' dropdown is set to 'Yes'. The 'Configuration key' field is empty. The 'Customer Protection' dropdown is set to 'No'. The 'Show only for specific countries' dropdown is set to 'All Allowed Countries'. There are two 'Reference' sections, each with a text input field and a list of allowed placeholders: Order number: {{orderid}}, Customer name: {{name}}, Date: {{date}}, Shop name: {{shopname}}, and Transaction: {{transaction}}. The 'Temporary order status' dropdown is set to 'Pending'. The 'Confirmed order status' dropdown is set to 'Processing'. The 'Order status for losses' dropdown is set to 'Do not update status'. The 'Order status for payment receipt' dropdown is set to 'Processing'. The 'Select the time of invoicing' dropdown is set to 'After finishing the payment'. The 'Create credit memo automatically' dropdown is set to 'Yes'.

When you enter the checkout, the method will appear in the list of available methods.

Settings

Configuration key

Can be found in your merchant portal.

Customer protection

You can enable the flag for customer protection, which will then be sent on requests

Show only for specific countries

Define in which countries you want to display Sofort as an available payment method.

Reference 1 + Reference 2

The content of those fields will appear on your transactions.

Transaction	Sender	Amount	Reference	Test	Fees
 71924-80713-6230C563-A0FF 03/15/2022 17:58:24	Max Mustermann 23456789 Demo Bank (88888888) SFRTDE20XXX DE06000000000023456789  Germany	104.00 €	4000000003 Markus Simon	Yes	0.00 € 

Those placeholders are possible:

- Order number: {{orderid}}
- Customer name: {{name}}
- Date: {{date}}
- Shop name: {{shopname}}
- Transaction ID: {{transaction}}

Temporary order status

This defines the initial status your orders will have after getting placed.

Confirmed order status

This defines the status your orders will have after the confirmation notification was received by your store.

Select the time of invoicing

Possible options are:

- After finishing the payment
- The receipt of the money (can only be detected with an account with SOFORT Bank)
- Do not auto-create invoice

This setting defines when an invoice is created.

Create credit memo automatically

Defines if a credit memo is created in Magento, if a refund notification from SOFORT is received.

Send order confirmation

Defines whether an order confirmation email will be sent.

Send receipt emails

Defines whether an order invoice and refund emails will be sent.

Sort order

Defines the sort order of listed payment methods in the checkout.
