

Knawat Dropshipping Installation Guide

Support:

v2.2.x,2.3.x

Download and Install :

1. Download the archive file.
2. Unzip the content of archive, use command 'unzip ArchiveName.zip'.
3. Make sure to create the directory structure in your Magento – 'Magento_Root/app/code/Knawat/Dropshipping'.
4. Drop/move the unzipped folder to directory 'Magento_Root/app/code/Knawat/Dropshipping'.
5. You need to install Knawat php library to use this extension.
6. To install this use below composer command from magento root directory.
`composer require knawat/knawat-php-sdk`.
7. Run the command from Magento root : `php bin/magento module:enable Knawat_Dropshipping`.
8. If you need to clear static content then use : `php bin/magento module:enable --clear-static-content Knawat_Dropshipping`.
9. Run the command from Magento Root : `php bin/magento setup:upgrade` .
10. Run the following command to deploy the Magento Extension.
`php bin/magento setup:static-content:deploy -f` (for developer mode)
`php bin/magento setup:static-content:deploy` (for default or production mode)
11. Clear cache: 'php bin/magento cache:clean', 'php bin/magento cache:flush'
