1.0 Introduction

Exit Popup extension uses an exit intent technology and shows an Exit Popup just when the user tries to leave the store. Exit Popup module is a great tool to improve the customer engagement and increases the chances of conversions. The store visitors can enter their email Id and claim for the discount which can be used on the store.

2.0 Installation

Follow the below mentioned steps for installing Exit Popup Module:

- Download the Exit Popup extension package.
- Unzip the package on your root folder of Magento setup via FTP manager (like Filezilla or WinSCP – download here).
- In Admin Panel go to “System > Knowband Extensions > Exit Popup”.

That is all – Your system is ready.
