1.0 Introduction

With the help of Automatic Newsletter Subscription, the online store merchant can display an attractive subscription pop-up on the homepage and subscription box on store pages. Automatic Newsletter Subscription can subscribe the store visitors automatically while checkout, registration or guest checkout. The e-merchant can get more subscribers for sending the newsletter. The Automatic Newsletter Subscription automatically forwards email ID information to the admin's MailChimp and Constant Contact list at the same time of subscription. The store visitors can also subscribe through the auto-subscribe box or subscription pop up if they wish to.

2.0 Installation

1. Download the zip from Magento marketplace and unzip it.
2. Open the extracted directory & you will see following folder structure.

3. Create a folder {Magento root}/app/code/Knowband/Autosubscribe.
4. Copy the extracted content in the above folder.
5. Run the following command in Magento root
 - `composer require constantcontact/constantcontact`
 - `composer require drewm/mailchimp-api`

Enable Autosubscribe

Enable Autosubscribe Run the following commands in your terminal to enable this extension.

1. `php -f bin/magento module:enable Knowband_Autosubscribe --clear-static-content`
2. `php -f bin/magento setup:upgrade`

Configure Autosubscribe

Log into your Magento Admin, then goto Stores -> Configuration -> Knowband -> Autosubscribe and configure the plugin as shown below:
