1.0 Introduction.....3

2.0 Installation Steps.....3

## 1.0 Introduction

Magento 2 Review Reminder and Incentives Extension helps you to gather product reviews from your customers who may be a buyer or visitor. You can send automatic emails asking customers for reviews about their purchase. The various product reviews can be approved, rejected or marked as pending from back-office. Only, the approved reviews are displayed on the product page which helps in gaining new customers on the store. Moreover, you can offer appealing incentives for every product experience shared by the customer. This in turn compels them to feedback their orders whenever they visit any product on store.

## 2.0 Installation Steps

1. Once after purchasing Review Reminder and Incentives extension from the store, you will get the following files on your registered email:

- Source code file of Review Incentive in zipped file format
- User Manual of Review Incentive module

2. Unzip the extension package.

3. Create a folder {Magentoroot}/app/code/Knowband/Reviewbooster.

4. Upload the extracted content in the above folder via FTP manager (like Filezilla or WinSCP – download here: <http://filezilla-project.org/>).

5. Now run below commands to install the plugin:

```
php -f bin/magento module:enable --clear-static-content Knowband_
```

## Reviewbooster

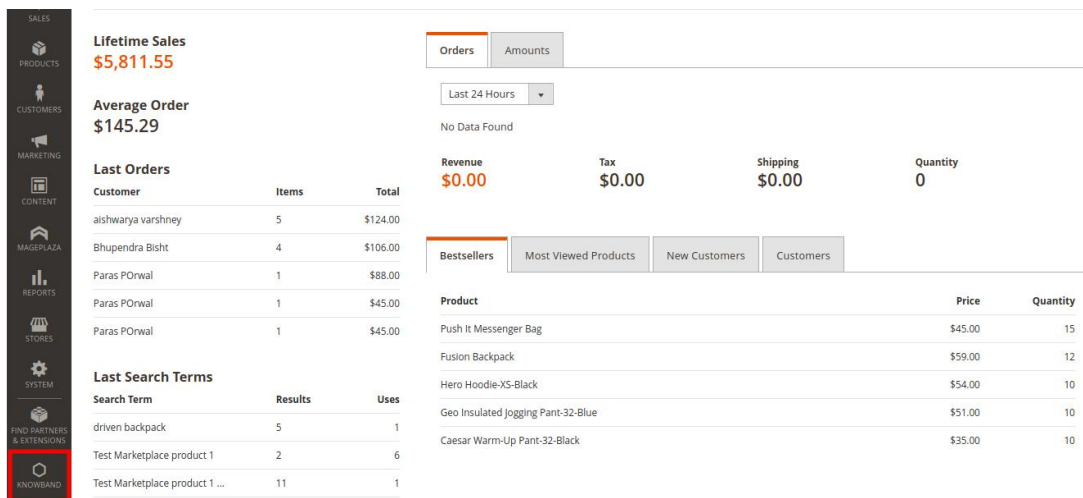

php -f bin/magento setup:upgrade

php -f bin/magento setup:di:compile

php bin/magento setup:static-content:deploy

The module is now installed and ready to use.

Just after successful installation of Review Reminder and Incentives on your website, you can collect and display as many reviews on your store as per business requirements. In order to configure this Review incentive module, navigate the settings in the given order: **Admin Panel > Knowband > Review Booster and Reminder**

The screenshot shows the Magento Admin Panel interface. On the left is a vertical sidebar with various menu items. The 'KNOWBAND' menu item at the bottom is highlighted with a red box. The main content area displays the 'Review Booster and Reminder' configuration page. It includes sections for 'Lifetime Sales' (\$5,811.55), 'Average Order' (\$145.29), 'Last Orders' (a table with columns for Customer, Items, and Total), and 'Last Search Terms' (a table with columns for Search Term, Results, and Uses). On the right side, there are tabs for 'Orders' and 'Amounts', a date range selector set to 'Last 24 Hours', and a summary table showing Revenue (\$0.00), Tax (\$0.00), Shipping (\$0.00), and Quantity (0). Below this, there are tabs for 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers'. The 'Bestsellers' tab is active, showing a table with columns for Product, Price, and Quantity, listing items like 'Push It Messenger Bag' and 'Fusion Backpack'.
