1.0 Introduction

The Share & Win Discount extension allows the store admin to promote their products on the popular social media platform Facebook. The store admin can enable the option for the customers to share the products on Facebook. The customers can win the excited discount on sharing the product. This admin can offer the discount based on the fixed or percentage base.

The customers can click on the product sharing button on the product page to get discount coupon code. The Share & Win Discount module allows the store admin to select the products for showing the Facebook sharing option. In the product statistics section, the admin can also view the details that the coupon codes have been applied or not.

2.0 Installation

After purchasing Share & Win Discount extension, the store admin will get following files:

1. shareandwin.zip which contain source code of the Share & Win Discount module.
2. User Manual which includes all the details and help regarding the extension.

The steps to install the extension are mentioned below:

1. Buy the Share & Win Discount module and download the extension package.
2. The package has a zipped file that contains the user manual and the source code of Share & Win Discount module. Unzip the package.
3. Create a folder{Magentoroot}/app/code/Knowband/Shareandwin
4. Upload the extracted content in the above folder via FTP manager (like Filezilla or WinSCP – download here: <http://filezilla-project.org/>).

5. Now run below commands to install the plugin:

```
php -f bin/magento module:enable --clear-static-content Knowband_Shareandwin
php -f bin/magento setup:upgrade
php -f bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

6. The extension is now installed and ready for use. In Admin Panel go to “**Knowband Extensions >Share and Win**”.

You can now configure and use this Product Share & Win Discount extension.
