1.0 Introduction..... 3

2.0 Installation Steps..... 3

1.0 Introduction

Magento 2 Web Push Notification shows clickable messages on the browser screen of the subscriber. Irrespective, whether the user is active on the browser or not, they will receive the custom notifications enabled by the site owner. Push notifications is more effective way to reach and catch the attention of web visitors in comparison to email marketing. You can send custom alert notifications to your customers like order status update, abandoned cart, product price alert, product stock alert etc and remind them regarding their pending action on the store.

2.0 Installation Steps

1. Once after purchasing Magento 2 Web Push Notification from the store, you will get the following files on your registered email:

- Source code file of Web Push Notification in zipped file format.
- User Manual of Website Push Notification.

2. Unzip the extension package.

3. Create a folder {Magentoroot}/app/code/Knowband/Webpushnotification

4. Upload the extracted content in the above folder via FTP manager (like Filezilla or WinSCP – download here: <http://filezilla-project.org/>).

5. Add the following dependencies in the Magento root composer.json file:

```
"mobiledetect/mobiledetectlib": "^2.8",  
"geoip2/geoip2": "^2.9.0"
```

And below command to install the above dependencies:

Reg. Office: E23, Sector 63, Noida – 201 301 , U.P. (India)
<http://www.velsof.com>

composer update

6. Now run below commands to install the plugin:

```
php -f bin/magento module:enable Knowband_Webpushnotification --clear-static-content
php -f bin/magento setup:upgrade
php -f bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

The Web Push Notifications is now installed and ready to use.

Just after successful installation of Web Push Notification on your website, you can create and activate web push notifications for your store in accordance with business requirements. Navigate the settings in the given order: **Admin Panel > Knowband > Web Push Notifications.**
