

By Integration of this Module into Magento 2.x version, You can track and communicate with your visitors.

## Installation Guide

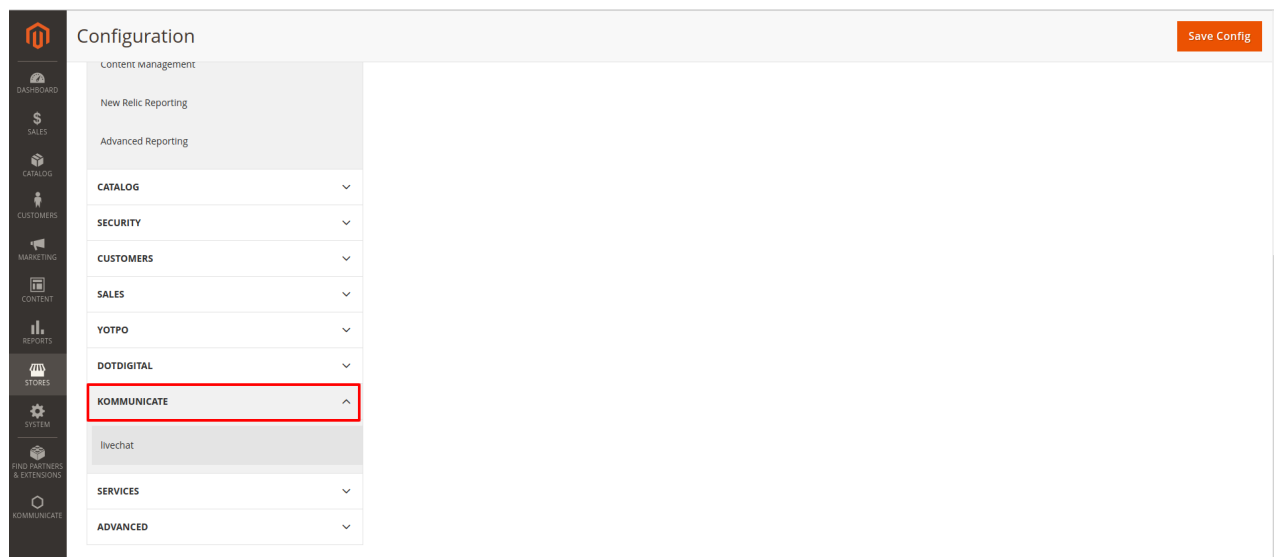

For Installation, Make sure you have installed composer on your system.

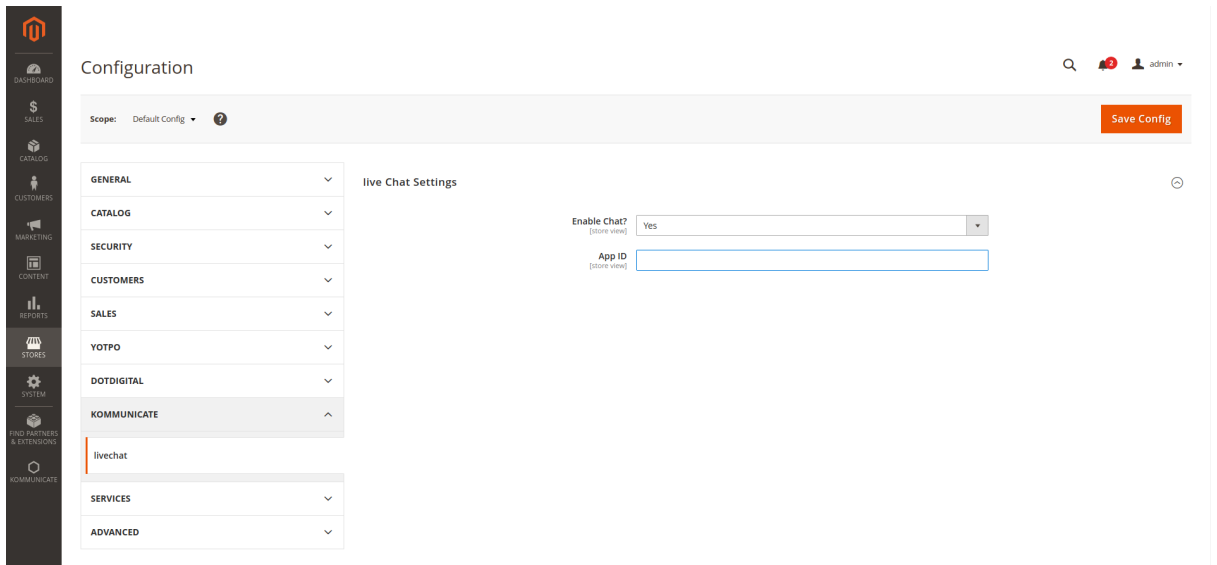

If not then you can install it by entering below command your main directory in Magento.

```
curl -sS https://getcomposer.org/installer | php
```

Next, go to the Magento main directory on your server and enter the following commands:

1. ***php composer.phar require kommunicate/module-livechat***  
to install Livechat extension
2. ***php bin/magento module:enable Kommunicate\_Livechat***  
to turn on the integration module
3. ***php bin/magento setup:upgrade***  
to update the settings
4. ***php bin/magento setup:static-content:deploy***  
to export the static files
5. ***php bin/magento cache:clean***  
to clean the cache
6. Now login to admin and go to below path for configuration  
***Admin >> Stores >> Configuration >> Kommunicate >> livechat >> live Chat Settings***  
Enable the Module to **Yes** and Enter the App ID

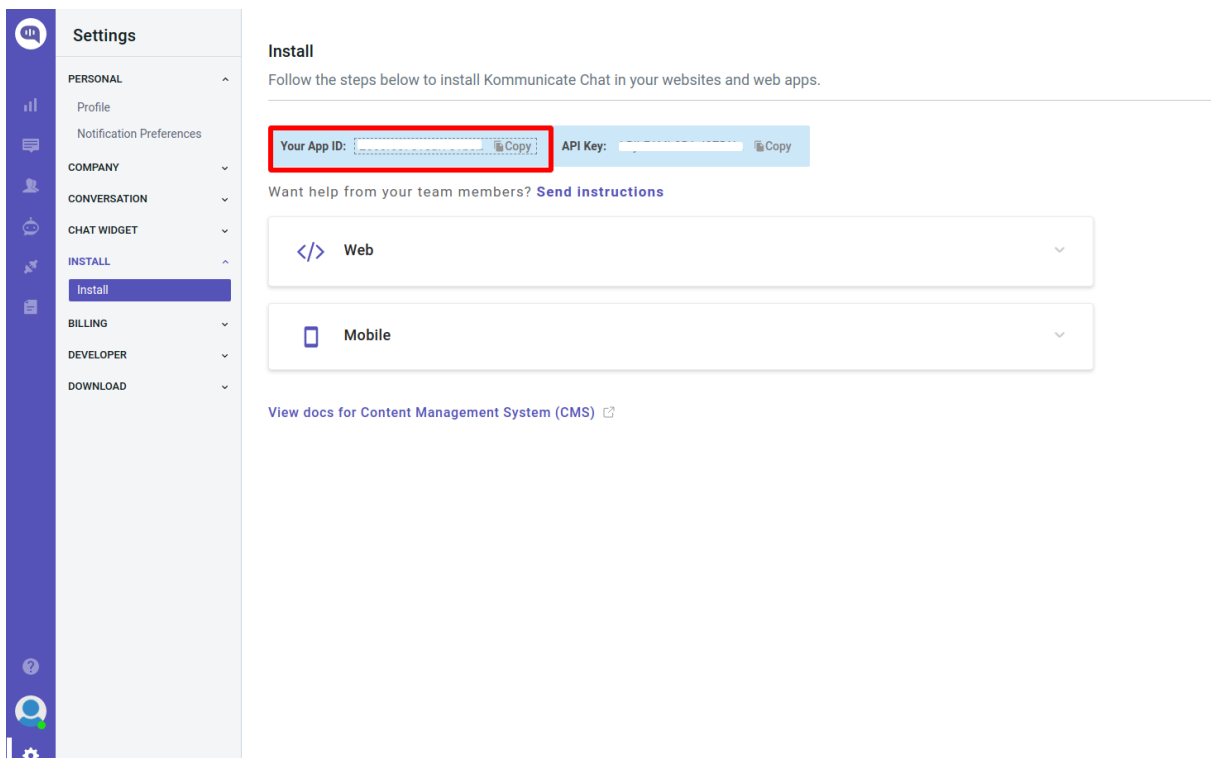

## How to get the APP ID ?

For getting APP Id, Go to kommunicate backend dashboard using below path.

***Kommunicate Backend >> Settings >> Install*** or below url

<https://dashboard.kommunicate.io/settings/install>

Copy Your APP ID and Enter on Magento backend.

You can able to see the Chat on Home Page same as below screenshot
