

# Magento2 module  
Stock status label module allow you to show a custom availability  
info label in product page.

#### ## Installation

Run command below from your magento2 root.  
composer require lucasart/stock-status-label:~1.2.0  
php bin/magento setup:upgrade

#### ## Usage

Enable and configure the module in admin.  
Stores -> Configuration -> Catalog -> Inventory -> Stock Status  
Label

That's all! Clean magento2 cache and go to product page in frontend.  
You will see the stock status label.
