

Module Installation

M2E Pro extension integrates Magento into eBay, Amazon and Walmart platforms to deliver the multi-channel retail experience that boosts your profitability.

The Solution supports multiple eBay/Amazon/Walmart accounts, continuous inventory synchronization with full order lifecycle management across 23 eBay, 9 Amazon and 2 Walmart marketplaces.

The Module is improved on a constant basis to provide you with the highest level of service. The detailed information about each version can be found in the [Release Notes](#) section. It is strongly recommended to use the most up-to-date version.

To install M2E Pro into your Magento, please use one of the following methods:

- via [Magento Marketplace](#)
- manually [from archive](#)

Tip
