Installation

 Before installing the extension, please make sure to **Backup your web directory and store database**

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
 - Navigate to the root folder of your Magento 2 setup
 - Run command as per below sequence,

```
php -f bin/magento setup:upgrade
```

```
php -f bin/magento module:enable Magedelight_Productlabel
```

```
php -f bin/magento setup:static-content:deploy
```

- Flush store cache
- log out from the backend and log in again

License Configuration

License activation is not required for extension purchased from Magento Marketplace.

After successful installation of Product Labels extension, you are now required to configure the license key in the admin configuration section. You can set it from:

Step 1: Go to, Admin Control Panel > Stores > Configuration > MageDelight > Product Labels > License Configuration.

You will find two text boxes asking for Serial Key and Activation Key, which you received on email upon the purchase of extension. See screenshot below:

License Configuration

Serial Key [store view]

Activation Key [store view]

- **Serial Key:** Enter Serial Key
- **Activation Key:** Enter Activation Key

Step 2: Expand “General Configuration” tab, you will find a list of domains for which license is purchased and configured, now select the domain you are going to use, you can select multiple domains by clicking “Ctrl + Select”.

General Configuration

Select Website [website]

- www.MageDelight.com
- www.krishtechlabs.com
- www.rocketbazaar.com

Please save serial and activation keys to get the available options.

Step 3: Now, select “Yes” from “Enable Module” to enable extension and again click on “Save Config” button on the top right.

- Add New Product Label: Click on the button to add new product label.
- View, edit and delete the labels using above grid.

Add New Product Label

Go to Product Labels tab and click on Product Labels it will open Product labels grid. Now click on "Add New Product Label" button it will open the page as below.

General Info

Label Name *

Status

Yes

Priority

0

Enter 0 to display label first, and 99 to display last

Start Date

End Date

Use for parent

No

Display child's label for parent (Only for configurable products).

Enter General Info of Product Label -

- **Label Name:** Write label name. This is for internal use only.
- **Status:** Set the status as enabled or disabled.
- **Priority:** Set the priority of the label. (For example, you have set maximum number of labels as 3 and created 5 labels. So now you need to prioritize the labels which 3 would get displayed on the front-end.)
- **Start Date:** Set start date on which label should start getting displayed on front-end.
- **End Date:** Set end date on which label should get hide from the front-end.
- **Use for parent:** Enable to use the same label as child label for parent product. It is useful only for configurable products.

Label Configuration

Label Configuration

Image

Upload

Allow image type : jpg, jpeg, png and Max image upload size 2Mb.

Label Text

Variables: {PRICE_FLAT} -save flat; {PRICE_PER} -save percent; Attribute value, Ex. {size}, {color};

Advanced CSS For Label Text

Customize label text styles with CSS parameters. Ex.: color: #000000; font-family: arial black;

- **Image:** Upload label image and drag & drop anywhere on canvas to set the position on product logo on front-end.
 - Also resize the image from the edges.
- **Label Text:** Add any text / price / discount or any product attribute value on the label. Once you save the text, it is possible to drag & drop it anywhere on the canvas and set position on the product logo on front-end.
 - Also resize the text from the edges. This is possible after you save the label.
- **Advanced CSS For Label Text:** Use Css to apply style to text on label.

Condition

Condition

Store View *

- All Store Views
- Main Website
 - Main Website Store
 - Default Store View
 - Magestore view

Customer Groups *

- NOT LOGGED IN
- General
- Wholesale
- Retailer

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE :

- **Store View:** Select store view to enable label to get displayed on selected store view(s) products.
- **Customer Groups:** Select customer groups to allow them to see product labels.
- **Condition:** Create conditions using product attributes to display product label for the products matching the condition criteria.
