Preface

With Shipping Per Product you no longer have to be worry about incorrect shipping rates for each product in your Magento store. Magento 2 Shipping Per Product Extension helps you to set individual flat shipping rate for each product.

Shipping On Per Product is an essential feature for the sellers that's why we have created an add-on for seller to add shipping price for each product from their panel.

After Installation of Extension login to magento admin panel to set configuration of the extension.

Configuration

Extension menu and sub menu. Shipping per product method configuration go to **Store→Configuration→Sales →Shipping Methods→Shipping Per Product.**

Front End Example

Set Shipping fee for product in product page go to Product → Catalog then view product.

Select shipping per product method from car page.

The screenshot shows a shopping cart page for 'LUMA'. The cart contains one item: 'Wayfarer Messenger Bag' priced at \$45.00. The summary panel on the right shows shipping options: 'Mageants Shipping Per Product' (selected, \$36.44) and 'Store Pickup' (\$0.00). A red box highlights the shipping options, with an arrow pointing to the 'Mageants Shipping Per Product' option. A text box below the cart items says 'You can select shipping per product method here'.

Item	Price	Qty	Subtotal
 Wayfarer Messenger Bag	\$45.00	1	\$45.00
