Preface

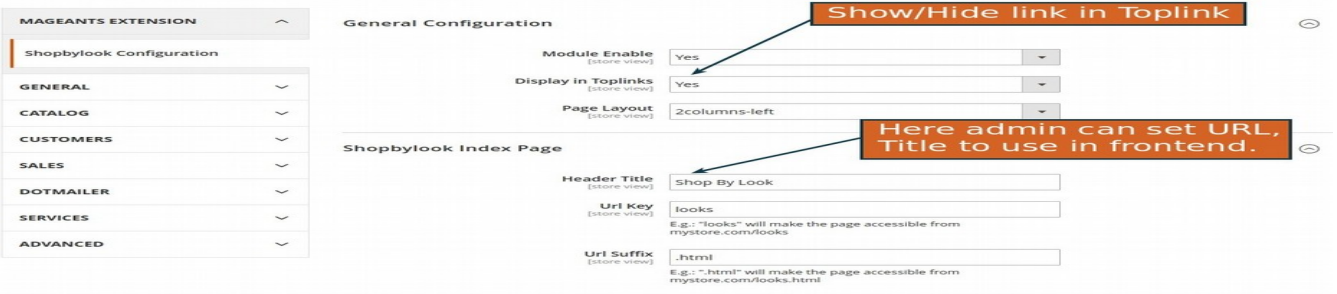

Using Look Book extension, Store manager can combine multiple products to single product, so customer can purchase whole look.

Using this, customer has an option to check the look book collection and purchase it.

Back-end Example

CONFIGURATION

After Installation the Extension, Go to Store → Configuration → Mageants Extension → Shopbylook Configuration, Where Store Manager can set the option.

→ After Installation the Extension, You can add insert widget of ShopByLook to display no. Of looks on frontend with widget options.

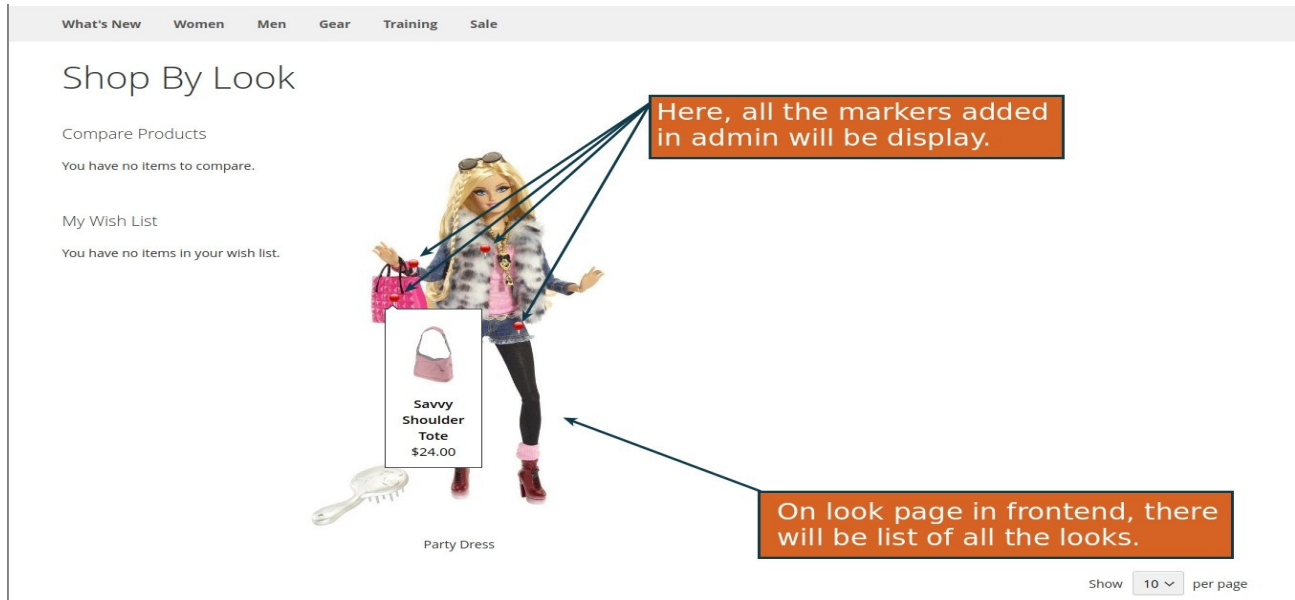

The screenshot shows the 'Insert Widget...' configuration window. On the left is a sidebar menu with icons for Dashboard, Sales, Catalog, Shop By Look, Customers, Marketing, Content, MagePlaza, and Reports. The 'Shop By Look' option is highlighted. The main area is titled 'Insert Widget...' and contains the following fields:

- Widget:**
 - Widget Type ***: A dropdown menu with 'Shop By Look List' selected. Below it, the text 'List of Shop By Look Product' is visible.
- Widget Options:**
 - Title**: An empty text input field.
 - Display Product ***: An empty text input field.
 - Display Popup Product Image**: A dropdown menu with 'No' selected.
 - Display Popup Product Price**: A dropdown menu with 'No' selected.

An orange callout box with a black border and a close button (X) in the top right corner contains the text: "Here, you can add looks list by widget in any cms page or cms block using widget option." An arrow points from this box to the 'Shop By Look List' dropdown menu. At the bottom right of the configuration area is an orange button labeled 'Insert Widget'.

Front-end Example

-> The Shop By Look link will display in Top Link Section, By Clicking on it Customer will redirect to a list where all Looks will be listed.

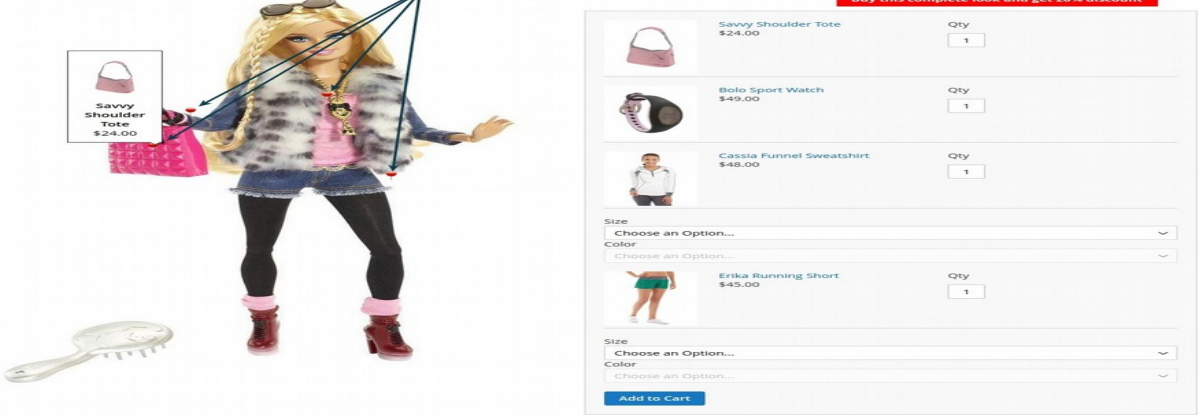

The screenshot shows a website's 'Shop By Look' page. At the top, there is a navigation bar with links: 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. Below the navigation bar, the page title 'Shop By Look' is displayed. On the left side, there are two sections: 'Compare Products' with the text 'You have no items to compare.' and 'My Wish List' with the text 'You have no items in your wish list.' The main content area features a woman in a grey and white patterned jacket, black leggings, and red boots, holding a pink handbag. A callout box points to the handbag with the text 'Savvy Shoulder Tote \$24.00'. Below the woman, there is a 'Party Dress' label. A large orange callout box with a black border points to the woman and the handbag, containing the text 'Here, all the markers added in admin will be display.' Another orange callout box with a black border points to the bottom right of the page, containing the text 'On look page in frontend, there will be list of all the looks.' At the bottom right, there is a pagination control that says 'Show 10 per page'.

-> By Clicking on look product it will redirect to Detail page where all the related products will be displayed. Customer can add quantity and add it to cart.

Party Dress

Here all the markers added in admin will be display with popup.
