Introduction

Using this extension customers are first approved by administrators before they can login or create orders. Customer Activation extension is perfect for wholesale stores that do not want to show wholesale prices to clients until they have been manually approved. For more information about this extension please visit MageArray.com

Installation

- Backup your web directory and store database
- Download extension installation package
- Disable Magento Cache run command "**php bin/magento cache:disable**" using SSH from your magento root directory
- Upload contents of the extension installation package to your "**app/code/MageArray/Customactivation**" directory
- Then run commands "**php bin/magento setup:upgrade**" using SSH from your magento root directory
- Enable Magento Cache run command "**php bin/magento cache:enable**" using SSH from your magento root directory

Usage

Admin

General Configurations

To configure the Customer Activation Extension for Magento 2, navigate to **Stores >> Settings >> Configuration >> MageArray Extensions >> Customer Activation.**

Customer Active / Inactive

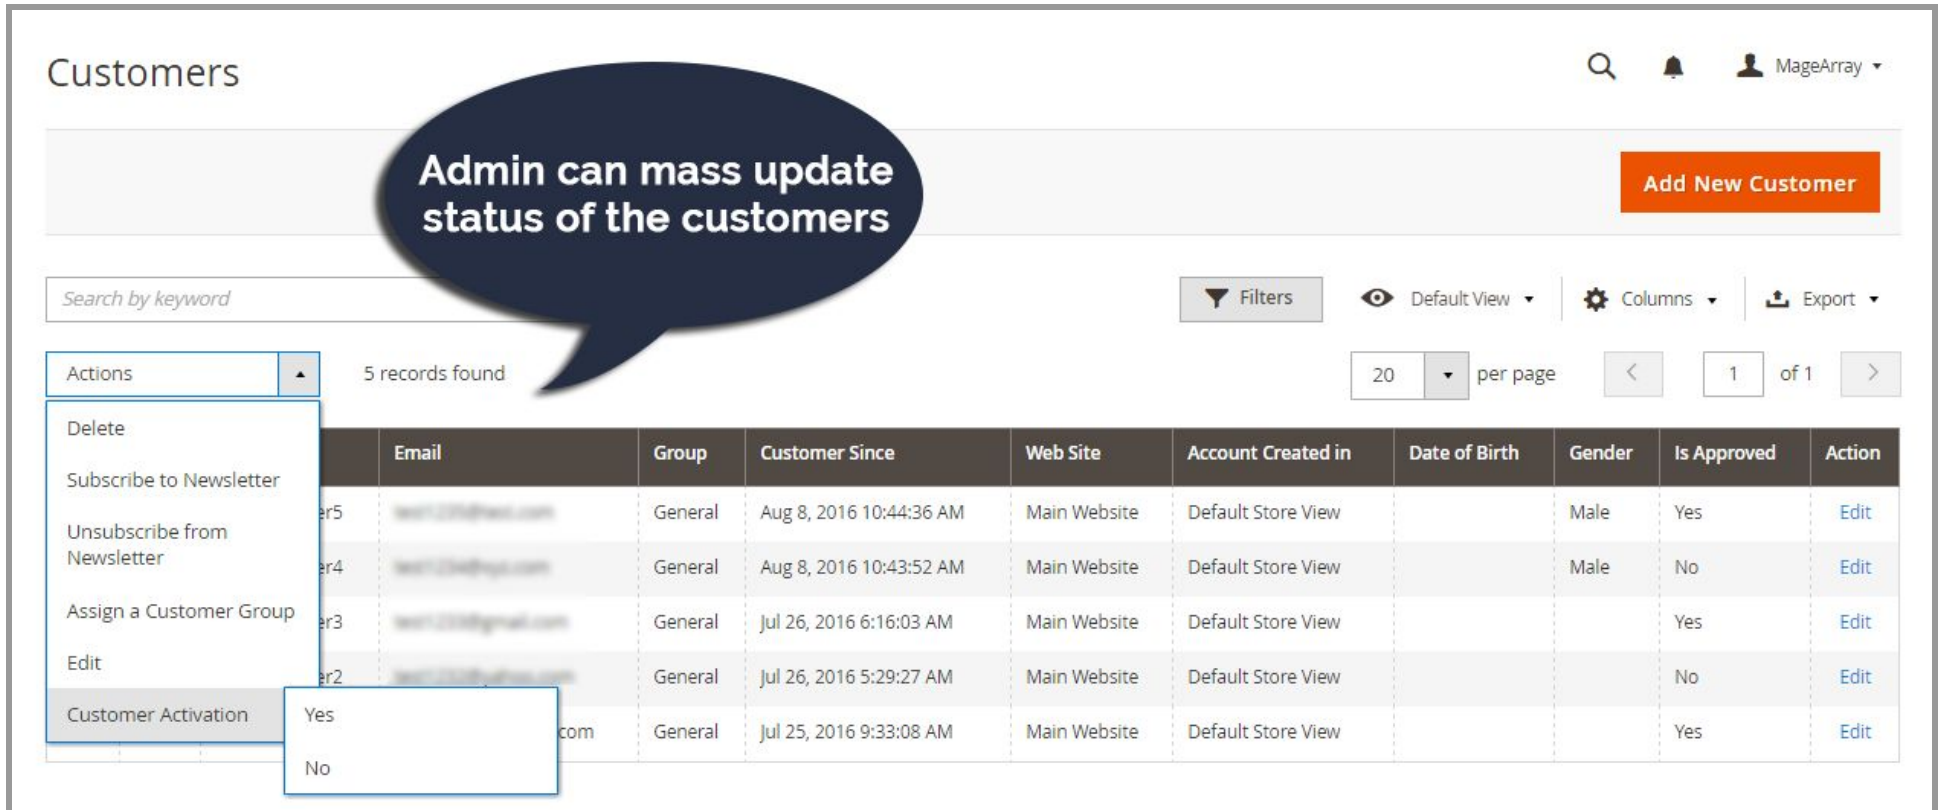

Here admin can see customer's account is **Active / Inactive**

The screenshot displays the 'Customers' management interface. At the top, there is a search bar with the placeholder text 'Search by keyword' and a magnifying glass icon. Below the search bar, there is an 'Actions' dropdown menu and a notification that '5 records found'. To the right of the search bar, there are icons for search, notifications, and a user profile labeled 'MageArray'. A dark blue speech bubble with white text is overlaid on the grid, stating: 'Admin can see customer's account is Approved or Not from customers grid.' The grid itself has 12 columns: a checkbox, ID (ascending), Name, Email, Group, Customer Since, Web Site, Account Created in, Date of Birth, Gender, Is Approved, and Action. There are five rows of test customer data, with the 'Is Approved' status alternating between 'Yes' and 'No'.

Admin can change status from customer detail page

Status: Account status active / inactive.

Front-End

New customer registered

The screenshot displays the MageArray website's customer login interface. At the top left is the MageArray logo. To the right is a search bar with the placeholder text "Search entire store here..." and a magnifying glass icon. Below the search bar is a shopping cart icon. A dark blue speech bubble callout is positioned in the upper right area, containing the text: "When Customer Registered they get message as below". Below the callout is a green notification banner with a checkmark icon and the text: "Thank you for registration. We will review your account and update you once activated." The page is divided into two columns. The left column is titled "Registered Customers" and contains the text "If you have an account, sign in with your email address." followed by input fields for "Email *" and "Password *", a "Login" button, and a link for "Forgot Your Password?". The right column is titled "New Customers" and contains the text "Creating an account has many benefits: check out faster, keep more than one address, track orders and more." followed by a "Create an Account" button. A footer note at the bottom left states "* Required Fields".
