

Indexer Plus

Description

Thank you for choosing IndexerPlus extension for your Magento 2 store. This extension allows you to manually update indexers.

Usage

Login to admin backend and click on **System** on the left sidebar. A settings panel will open, click on **Index Management** under the **Tools** section.

It would take you to the default index management page of Magento 2. However you should see an extra column in table with manual links to trigger individual indexing. Click on 'Reindex Now' to update the corresponding indexer. (Refer to the following screenshot).
