HOW TO INSTALL?

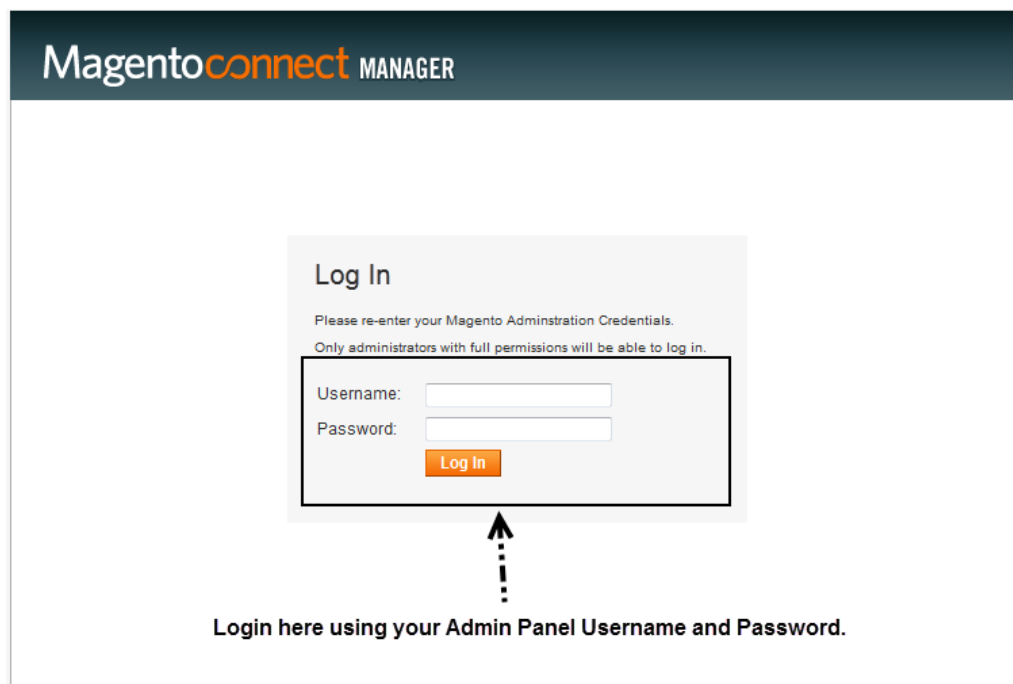

Pre-installation:

- ⇒ Login to admin → System → Cache Management and **disable** all types of cache.
- ⇒ Go to System → Tools → Compilation and "**Compilation Status**" must be "**Disabled**".

Using Magento Connect:

Step-1

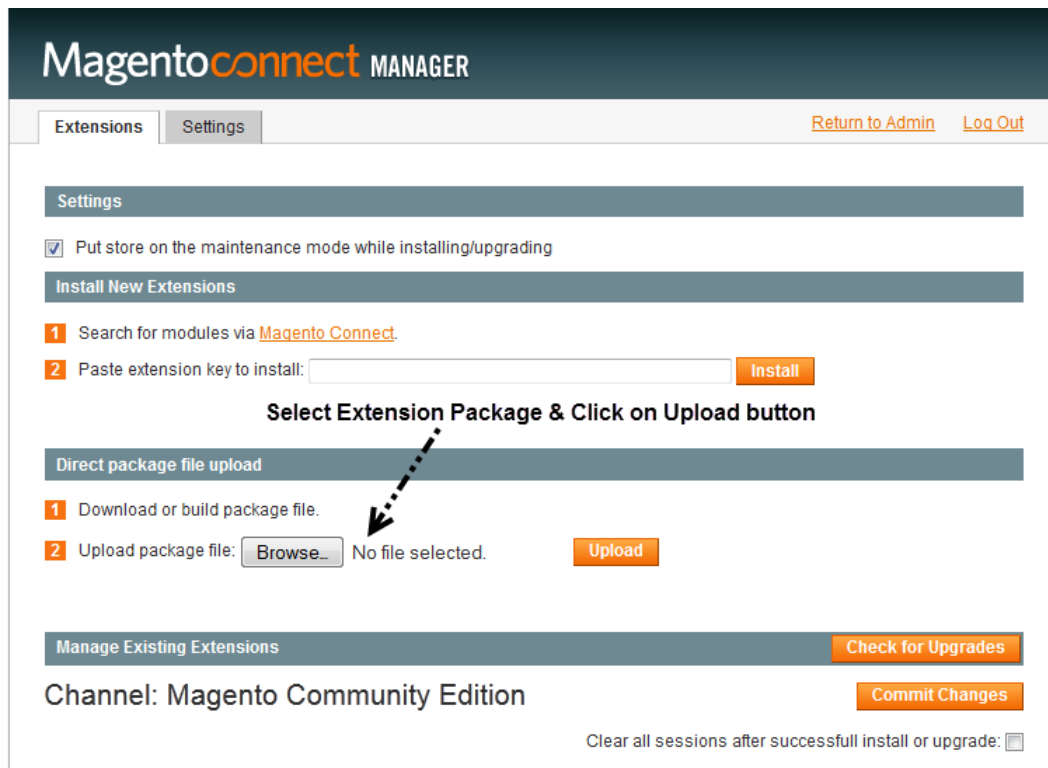

- ⇒ Go to admin → System → Magento Connect → Magento Connect Manager.
- ⇒ You will get following screen. Enter your Username and Password here then, click on the login.

Step-2

- ⇒ You will get following screen. Select the package using **Browse** button and click on the **Upload** Button.

The screenshot displays the Magento Connect Manager interface. At the top, there is a header with the logo 'Magentoconnect MANAGER' and navigation links for 'Return to Admin' and 'Log Out'. Below the header, there are tabs for 'Extensions' and 'Settings'. The main content area is divided into several sections:

- Settings:** A checkbox labeled 'Put store on the maintenance mode while installing/upgrading' is checked.
- Install New Extensions:** A section with two numbered steps:
 - 1 Search for modules via [Magento Connect](#).
 - 2 Paste extension key to install: [input field] [Install]
- Select Extension Package & Click on Upload button:** A central instruction with a dashed arrow pointing to the 'Browse...' button in the 'Direct package file upload' section.
- Direct package file upload:** A section with two numbered steps:
 - 1 Download or build package file.
 - 2 Upload package file: [Browse...] No file selected. [Upload]
- Manage Existing Extensions:** A section with a 'Check for Upgrades' button.
- Channel: Magento Community Edition:** A section with a 'Commit Changes' button.
- Clear all sessions after successfull install or upgrade:** A checkbox at the bottom right.
