FAQS

Q-1: I have tried to install Ajax Infinite scroll extension using the terminal, but I am not able to install using the command line, what are steps for custom installation of Ajax Infinite scroll extension??

NOTE: Please [contact us](#) for installing our module in your store.

Q-2: I am getting the error in console for magebeesInfiniteScroll.js not found, How to solve this problem?

Solution-1:

1. Go to admin -> SYSTEM-> Cache Management .You can see the following screen.

<input type="checkbox"/>	Database DDL operations	Results of DDL queries, such as describing tables or indexes	DB_DDL	DISABLED
<input type="checkbox"/>	EAV types and attributes	Entity types declaration cache	EAV	DISABLED
<input type="checkbox"/>	Customer Notification	Customer Notification	CUSTOMER_NOTIFICATION	DISABLED
<input type="checkbox"/>	Page Cache	Full page caching	FPC	DISABLED
<input type="checkbox"/>	Integrations Configuration	Integration configuration file	INTEGRATION	DISABLED
<input type="checkbox"/>	Integrations API Configuration	Integrations API configuration file	INTEGRATION_API_CONFIG	DISABLED
<input type="checkbox"/>	Translations	Translation files	TRANSLATE	DISABLED
<input type="checkbox"/>	Web Services Configuration	REST and SOAP configurations, generated WSDL file	WEBSERVICE	DISABLED

Additional Cache Management

- Flush Catalog Images Cache: Pregenerated product images files
- Flush JavaScript/CSS Cache: Themes JavaScript and CSS files combined to one file
- Flush Static Files Cache: Preprocessed view files and static files

2. Click on Flush JavaScript/Css Cache and Flush Static Files Cache Button
3. Refresh the page in Frontend.

Ajax Infinite Scroll Extension for Magento 2 By MageBees

Solution-2:

- 1) Open command prompt / terminal and change directory to your magento install directory.
- 2) Run following command :

```
rm -R pub/static/*
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

```
php bin/magento cache:clean
```

Thank you!
