FAQS

Q-1 I have tried to install Product Image Flipper extension using terminal, but I am not able to install using command line, what are steps for custom installation of Product Image Flipper extension??

Solution:

Please [contact us](#) for install our module in your store.

Q-2: I am getting error in console for magebeesFlipper.js not found , How to solve this problem ?

Solution 1:

1. Go to admin -> SYSTEM-> Cache Management. You can see following screen.

			Flush Cache Storage	Flush Magento Cache
<input type="checkbox"/>	Database DDL operations	Results of DDL queries, such as describing tables or indexes	DB_DDL	DISABLED
<input type="checkbox"/>	EAV types and attributes	Entity types declaration cache	EAV	DISABLED
<input type="checkbox"/>	Customer Notification	Customer Notification	CUSTOMER_NOTIFICATION	DISABLED
<input type="checkbox"/>	Page Cache	Full page caching	FPC	DISABLED
<input type="checkbox"/>	Integrations Configuration	Integration configuration file	INTEGRATION	DISABLED
<input type="checkbox"/>	Integrations API Configuration	Integrations API configuration file	INTEGRATION_API_CONFIG	DISABLED
<input type="checkbox"/>	Translations	Translation files	TRANSLATE	DISABLED
<input type="checkbox"/>	Web Services Configuration	REST and SOAP configurations, generated WSDL file	WEBSERVICE	DISABLED

Additional Cache Management

- Flush Catalog Images Cache: Pregenerated product images files
- Flush JavaScript/CSS Cache: Themes JavaScript and CSS files combined to one file
- Flush Static Files Cache: Preprocessed view files and static files

2. Click on Flush JavaScript/Css Cache and Flush Static Files Cache Button
3. Refresh the page in Frontend.

Product Image Flipper Extension for Magento 2 By MageBees

Solution-2:

1) Open command prompt / terminal and change directory to your magento install directory.

2) Run following command :

```
rm -R pub/static/*
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

```
php bin/magento cache:clean
```

Thank you!
