## 1. Overview

Store owners sometimes need to restrict the shipping of product right down to select zip/Postcodes and cities. **Magento Shipping Filter By Zipcode** allows the store owner to restrict the shipping of products right down to selected ZIP/Postcodes and cities. This extension is designed to give store owners greater functionality to set his shipping area easily.

This extension allows you the use of wildcards when configuring zip codes on the backend. Example: the rule BT15\* would validate zip codes like the following; BT15 5EX, BT15 123, BT15 456, BT15 1AA. This extension also allows you add a range of zip code for example: 1001 – 1890, 27892 – 28445 etc. Using with this extension you can also export import your zip code.

The Magento Shipping Filter by Zipcode Extension allows the store owner to add Delivery Days for a specific zip code. This extension also provide a restrict cash on delivery payment method specific zipcode. You can select Yes/No for Cash on Delivery payment method for specific zipcode.

Magento Shipping Filter by ZIP Code allow you to check the zip code from any page of your store. Like Any CMS page, category, product view, shopping cart. To add zipcode checking code in your CMS page you can write bellow line in your any cms page :

```
{{block class="Magebright\Zipcode\Block\Zipcodecheck"
template="Magebright_Zipcode::checkpostcode.phtml"}}
```

## 2. Installation

1. Unpack the extension ZIP file on your computer.
2. Connect to your website source folder with FTP/SFTP/SSH client and upload all the files and folders from the extension package to the corresponding root folder of your Magento installation.
3. Open your usual SSH program and go to the main directory of your website.
4. Run the command “php bin/magento module:enable --clear-static-content Magebright\_Zipcode” to enable the module and clear static contents generated by Magento.
5. Run the command “php bin/magento setup:upgrade” to upgrade the Magento application and database.
6. Flush Magento caches by executing the command “php bin/magento cache:flush”.

## 3. Back-end Settings

Admin can easily enabled/disabled this extension from [Magento Admin](#)>>[Stores](#)>>[Configuration](#)>>[Magebright](#) >>[Zipcode](#) >>[General](#)>>[Enable](#) as per shown below image.

You can easily set here which page zipcode filter portion show or hide.

This Extension is allowed store owner to set Error message and Cash On Delivery Message. Everything is explained in below image.

 Set Error Message for Cash On Delivery

Store owner easily manage zipcode from admin panel. He can add, delete, import, export and update zipcode from admin panel .You have to go in Magento Admin>>Magebright>>Manage Zipcode as per shown below image.

**Zipcode**

Admin user can add new Zipcode from here. → **Add New Zipcode** **Import Zipcode** **Export Zipcode**

ID	Name	City	Delivery Days	Cash On Delivery	Action
1	35801	Alaska	3-4 Days	Yes	Select ▼
2	72201	Arkansas	2-3 Days	Yes	Select ▼
3	90001	California	2-3 Days	Yes	Select ▼
4	33124	Florida	3-4 Days	No	Select ▼
5	46201	Indiana	1-2 Days	Yes	Select ▼

Admin users can easily import Zipcode through a csv file from here. User have to upload csv file on pub/media/import with zipcode\_data.csv name Before Click on Import Zipcode button

**MAGEBRIGHT** ←

You can see above image store owner can easily manage bulk zip code. The store owner has need to take care of zipcode csv file to import bulk zip code. To Import zip code store owner has to prepare csv file. He can download the sample file by clicking on "Export Zipcode" button. After downloading sample csv file. The store owner has to feed his zip code with proper detail. After creating zip code csv file he has to upload manually this csv file on **pub/media/import** folder with **zipcode\_data.csv** name. One important thing name of csv file must be **zipcode\_data.csv**. Here in below image you can find the right format of the csv file.

	A	B	C	D	E	F	G	H	I
1	<b>Postcode</b>	<b>City</b>	<b>Delivery Days</b>	<b>Cash On Delivery</b>	<b>Status</b>

Store owner able add zipcode along with it city, delivery days, cash on delivery option as per below image

#### 4. Frontend Output

User can Zipcode filter on product listing page, product detail page, CMS page, Shoping cart page etc .Here you can see images for frontend out put.

- **Product Listing Page**

The screenshot shows the LUMA website's Product Listing Page for Bags. At the top, there is a search bar and a shopping cart icon with a '2' badge. Below the search bar is a navigation menu with categories: What's New, Women, Men, Gear (highlighted), Training, and Sale. Below the navigation menu is a breadcrumb trail: Home > Gear > Bags. The main heading is 'Bags'. On the left, there are 'Shopping Options' with filters for STYLE, ACTIVITY, FEATURES, MATERIAL, PRICE, and STRAP/HANDLE. A 'Check Zipcode' widget is positioned below the filters, with a red box and arrow pointing to it containing the text: 'User can check here whether his zipcode is valid or not valid'. The main content area displays 14 items in a grid. The first four items are: Joust Duffle Bag (\$34.00, 2 reviews), Overnight Duffle (\$45.00, 3 reviews), Driven Backpack (\$36.00, 2 reviews), and Endeavor Daytrip Backpack (\$33.00, 3 reviews). A 'Sort By' dropdown menu is set to 'Position'.

- **Product Detail Page**  
[1] Without Search Result

The screenshot shows the Product Detail Page for the Joust Duffle Bag. On the left is a large image of the bag. On the right, the product name 'Joust Duffle Bag' is displayed with a 4-star rating and '2 Reviews'. Below the name is the price '\$34.00' and the status 'IN STOCK' with 'SKU#: 24-MB01'. A 'Qty' selector is set to '1', followed by an 'Add to Cart' button. Below the 'Add to Cart' button is a 'Check Zipcode' widget with a red box and arrow pointing to it containing the text: 'Zipcode check functionality on product detail page without result'. At the bottom, there are links for 'WISH LIST', 'COMPARE', and 'EMAIL'.
