1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding Magento Extension Installation, Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores → Configuration** to configure the extension for use. Here you can find setting to enable the extension.

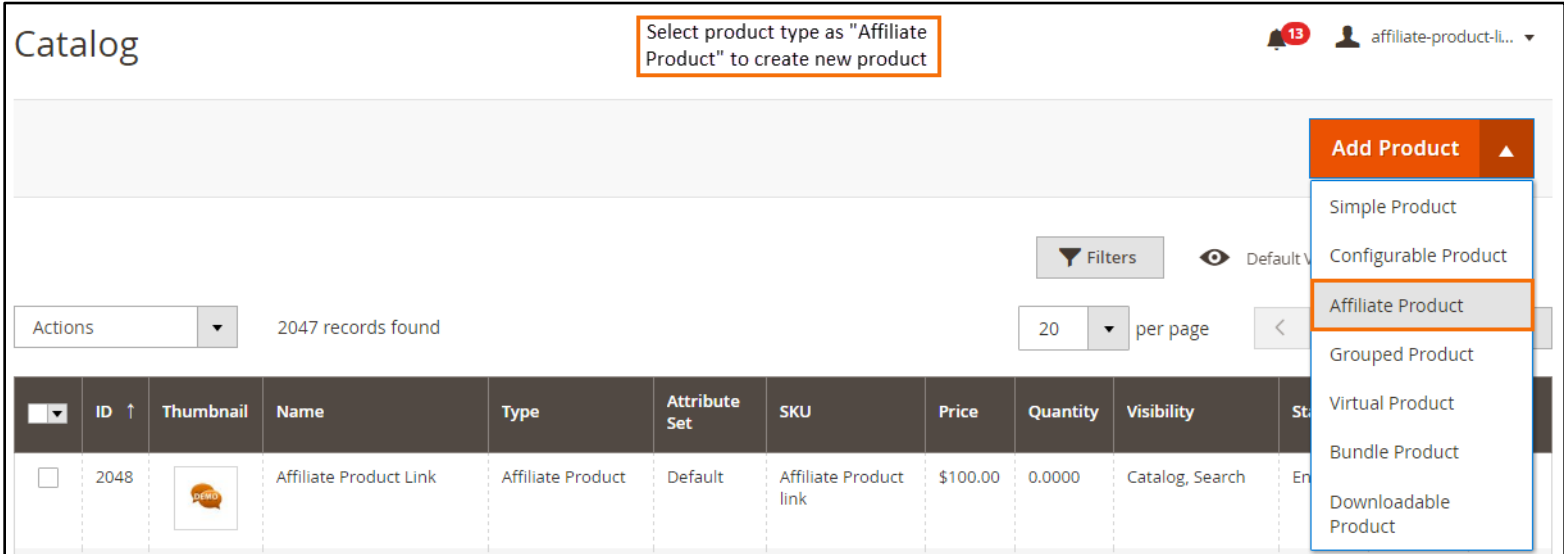

- **Affiliate Product Links:** Select YES to enable or disable Affiliate Product Links extension.

The screenshot shows the Magento Configuration interface. At the top left, the title "Configuration" is displayed. In the top right corner, there is a notification bell icon with the number "13" and a user profile icon labeled "affiliate-product-li...". Below the title bar, there is a "Store View" dropdown menu set to "Default Config" with a help icon. A prominent orange "Save Config" button is located on the right side of this bar. The main content area features a breadcrumb trail: "MageComp" (with an up arrow) followed by "Configuration" (with a down arrow). Below this, the "Affiliate Product Links" section is highlighted with an orange box. The setting is labeled "Affiliate Product Links [store view]" and is currently set to "Enable". A dropdown arrow is visible next to the "Enable" value. An orange arrow points from a text box on the right, which says "Enable or disable extension from here", to the dropdown arrow.

3. Adding Affiliate Product from Backend

Extension facilitates to select product type as affiliate while adding from Magento 2 backend. Simply go to **Product** → **Catalog** and select **Add Product** drop down and add product type as affiliate.

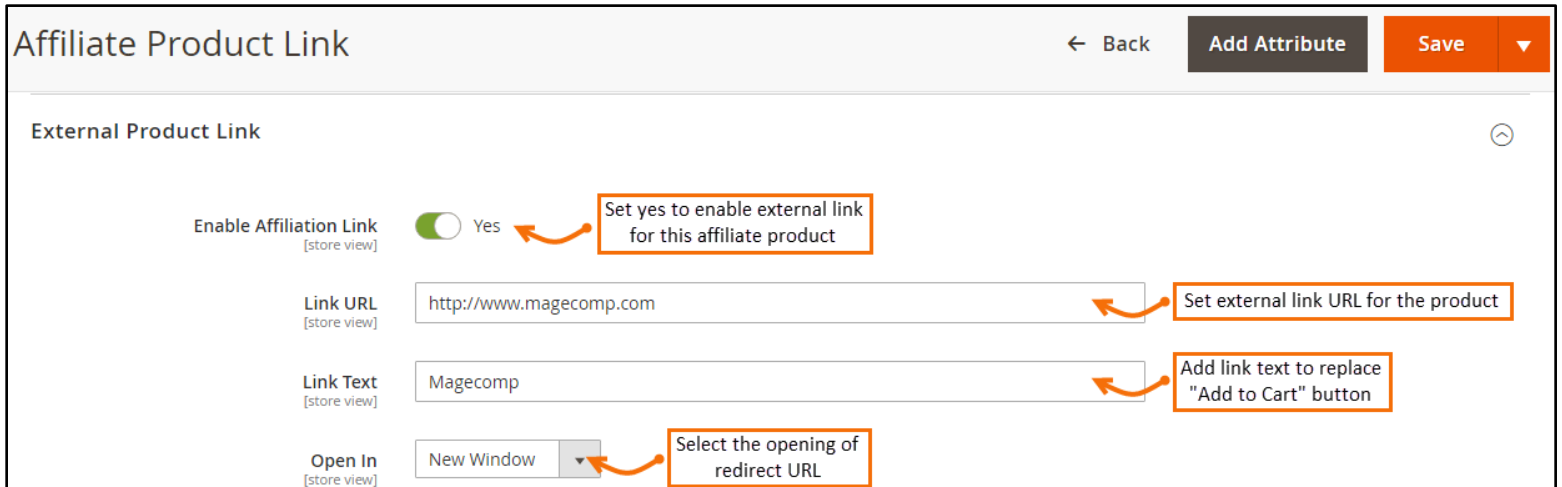

The screenshot shows the 'Catalog' page in the Magento 2 backend. A callout box at the top says 'Select product type as "Affiliate Product" to create new product'. The 'Add Product' dropdown menu is open, and 'Affiliate Product' is highlighted. Below the menu, a table lists product records. The first record is an 'Affiliate Product Link' with ID 2048, price \$100.00, and quantity 0.0000.

ID	Name	Type	Price	Quantity
2048	Affiliate Product Link	Affiliate Product	\$100.00	0.0000

Select Affiliate Product Link section where you can find settings to add external link URL for the products, add link text and open it in same or new tab options.

- **Enable Affiliation Link:** Enable or disable affiliation links for this product.
- **Link URL:** Set external product link URL.
- **Link Text:** Set button text to replace add to cart with.
- **Open In:** Select option to open link in either same or new tab.

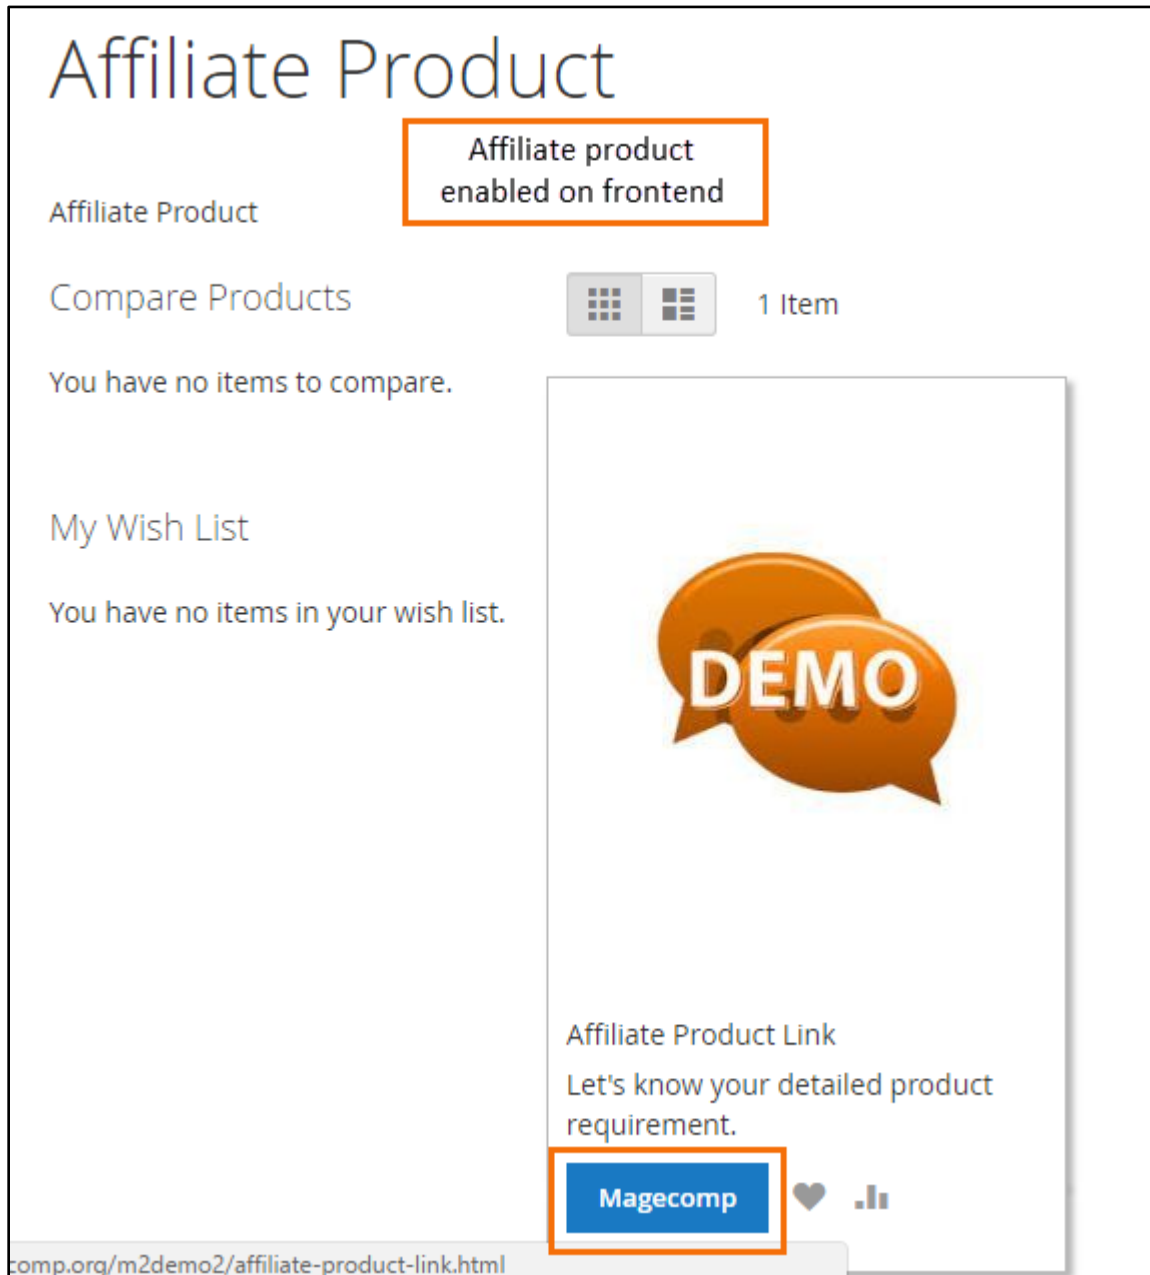

The screenshot shows the 'Affiliate Product Link' configuration page. It includes the following settings with callouts:

- Enable Affiliation Link:** Set to 'Yes' (indicated by a callout: 'Set yes to enable external link for this affiliate product').
- Link URL:** Set to 'http://www.magecomp.com' (indicated by a callout: 'Set external link URL for the product').
- Link Text:** Set to 'Magecomp' (indicated by a callout: 'Add link text to replace "Add to Cart" button').
- Open In:** Set to 'New Window' (indicated by a callout: 'Select the opening of redirect URL').

4. Frontend

Once Affiliate Product Links is configured, you can see it enabled on category page. When users click affiliate products' button, they get redirected to external links.
