1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding Magento Extension Installation, Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores → Configuration** to configure the extension for use.

The screenshot shows the Magento Configuration interface. At the top, there is a 'Configuration' header with a notification bell (22) and a user profile 'advancedextrafee'. Below this, the 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right. The main content area shows the 'Advanced Extra Fee' extension configuration. The extension name 'Advanced Extra Fee' is highlighted with a red box. The configuration field 'Advanced Extra Fee [store view]' is set to 'Enable', and this field is also highlighted with a red box. A red arrow points from the 'Enable' field to a button labeled 'Enable extension from here', which is also highlighted with a red box. Below the extension configuration, the 'Checkout Step Options' section is partially visible.

- **Advanced Extra Fee:** Enable or disable extension from here.

3. Checkout Step Options:

Once you have configured the extension, now setup checkout addons to display in store frontend.

Checkout Step Options

Step Title [store view]  **Set frontend checkout step title**

Required Selection [store view]  **Set compulsory addon selection**

Checkout Addons [website]

Name	Charge	Action
<input type="text" value="Same Day Delivery"/>	<input type="text" value="30"/>	
<input type="text" value="Next Day Delivery"/>	<input type="text" value="20"/>	
<input type="text" value="Standard Delivery"/>	<input type="text" value="10"/>	
<input type="button" value="Add"/>		

Accept Customer Comment [store view]  **Option to enable customer comment in checkout**

From here, you can add multiple checkout addons and its price to display in store frontend

- **Step Title:** Option to set a custom checkout step title to display in store frontend.
- **Required Selection:** Set “Yes” if you want your customer to make a compulsory selection from checkout addons.
- **Checkout Addons:** From here, you can add one or more checkout addons to display in frontend checkout step.
- **Accept Customer Comment:** Choose “Yes” to display customer comment box in store frontend.

4. Tax Settings:

The admin can also calculate and charge tax on Extra Fee or you can say checkout addons if needed.

Tax Settings

Calculate Tax [store view]  **Option to calculate tax on addons**

Select Tax Class [store view]  **Select your tax class from here**

- **Calculate Tax:** Option to enable or disable tax on extra fee.
- **Select Tax Class:** Select the tax class that you want to apply as tax.

7. Deactivation of Extension in Case of Emergency

- Go to **app** → **etc** → **config.php** and find '**Magecomp_Advancedextrafee**' => **1**, and replace 1 with 0.
- If something goes wrong, please contact us at support@magecomp.com

8. FAQs:

- **What if I get “Access denied” error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.
