

Aramex Shipping Integration For Magento 2

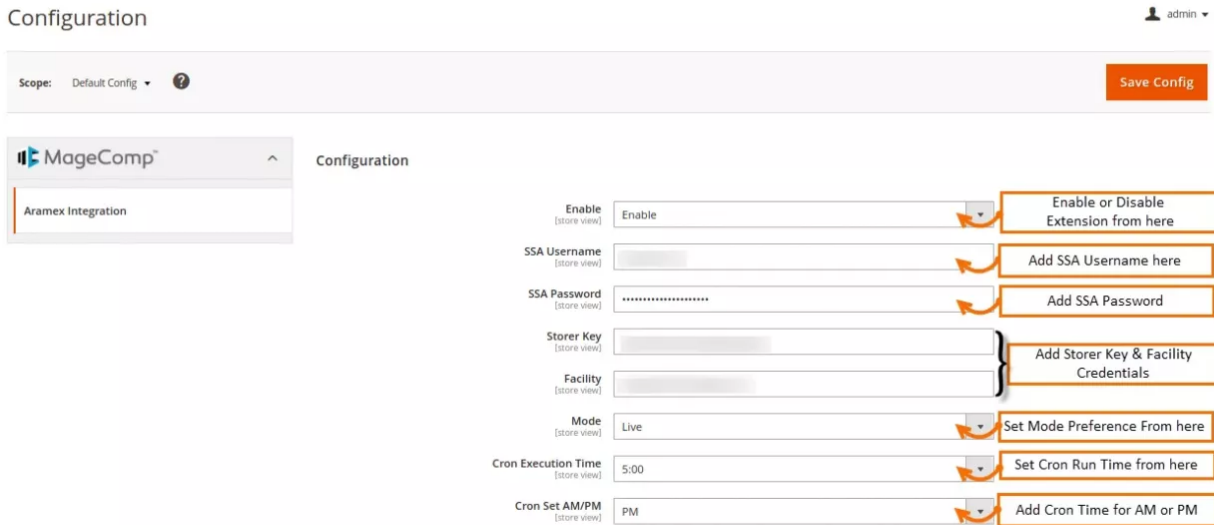

Aramex Shipping integration extension for Magento 2 smoothly synchronizes all the order data of your Magento 2 store with Aramex.

Table of Content

1. **Configuration**
2. **Aramex Order Processing Dashboard**

1. Configuration

Once the extension is installed successfully, go to **Stores>Configuration** to configure the extension for use.

The screenshot shows the 'Configuration' page for the 'Aramex Integration' extension. The configuration is set for the 'Default Config' scope. The fields and their callout boxes are as follows:

- Enable:** A dropdown menu set to 'Enable'. Callout: 'Enable or Disable Extension from here'.
- SSA Username:** A text input field. Callout: 'Add SSA Username here'.
- SSA Password:** A text input field with masked characters. Callout: 'Add SSA Password'.
- Storer Key:** A text input field.
- Facility:** A text input field. Callout: 'Add Storer Key & Facility Credentials' (bracketed around both fields).
- Mode:** A dropdown menu set to 'Live'. Callout: 'Set Mode Preference From here'.
- Cron Execution Time:** A dropdown menu set to '5:00'. Callout: 'Set Cron Run Time from here'.
- Cron Set AM/PM:** A dropdown menu set to 'PM'. Callout: 'Add Cron Time for AM or PM'.

Enable: You can easily Enable or Disable the Aramex Shipping Integration Extension from this field. Set it as Enable to use the feature of this extension.

SSA Username: In this field, enter the Social Security Administration username.

SSA Password: In this field, enter the Social Security Administration password.

Storer Key: In this field, enter the Storer Key provided to you.

Facility: In this field, enter the facility provided to you.

Mode: In this drop-down menu, select the mode from either live or offline as per your preference.

Cron Execution Time: Set the cron execution time when you want to start syncing the order data.

Cron Set AM/PM: Set AM or PM from the drop-down menu as per your preferred time.

2. Aramex Order Processing Dashboard

This is how the Dashboard of Aramex Order Processing will look. The details of the orders placed for your Magento 2 store will be synced automatically with Aramex through this extension.
