1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - php bin/magento setup:upgrade
 - php bin/magento setup:static-content:deploy
 - php bin/magento indexer:reindex
 - php bin/magento cache:flush
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding Magento Extension Installation, Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Store → Configuration** to configure the extension for use.

- **Custom Price:** Enable or disable extension from here.
- **Product Option:** Option to set custom price globally for all products or you can choose Product Wise option to set product specific custom price.
- **Minimum Custom Price:** You can set minimum product price for all store products if need.
- **Frontend Label:** Set your custom message that you want to display in frontend product page.

Field Name	Value	Instruction
Custom Price [store view]	Enable	Enable extension from here
Product Option [store view]	Global	Choice to set global or product specific custom price.
Minimum Custom Price [store view]	25	Set Global minimum product price
Frontend Label [store view]	Enter Your Custom Price	Set label to display in store frontend

3. Product Wise Custom Price

Once you have decided to set product specific custom price you need to navigate to backend product page and you will find an option to set custom price field to set minimum custom price for the product.

Custom Price ⌵

Custom Price [global] Yes Set Yes to set product specific minimum price

Minimum Custom Price [global] 49 Set minimum price

4. Custom Price Box in Store Frontend

Once you have configured extension properly from the backend, your customer will be able to find custom price box under product quantity box in store frontend.

Home > Custom Price > Custom Price Simple Product 1

Custom Price Simple Product 1

[Be the first to review this product](#)

₹100.00 IN STOCK

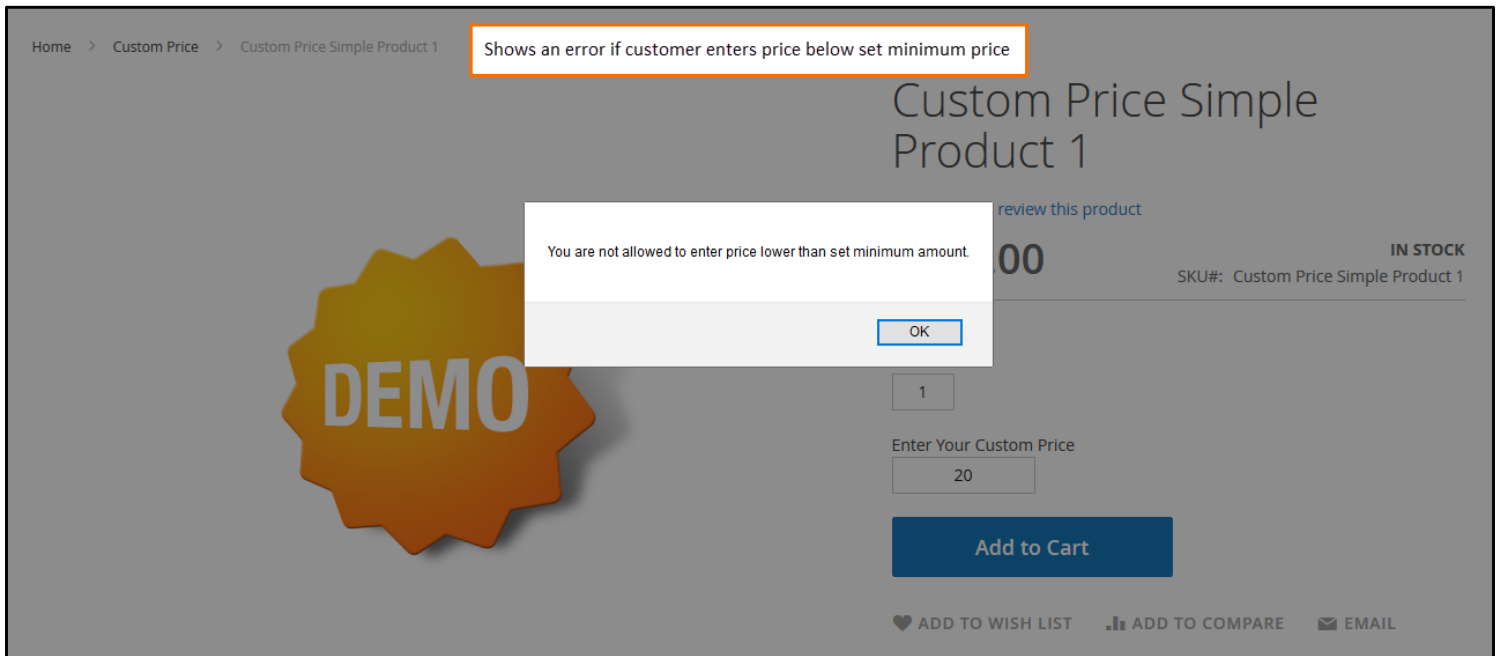

SKU#: Custom Price Simple Product 1

Qty

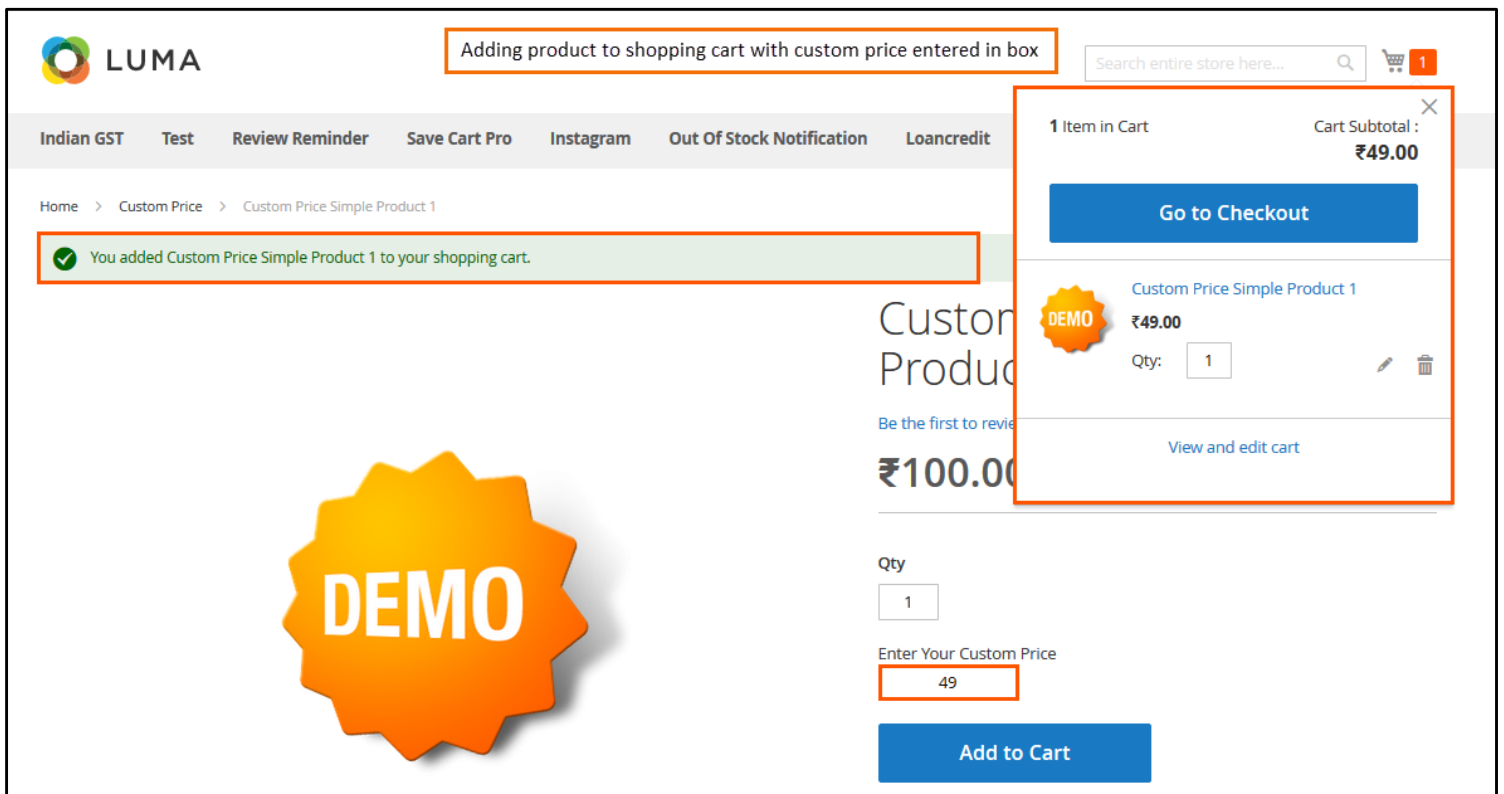

Enter Your Custom Price Your customer can enter product price using this box

[ADD TO WISH LIST](#) [ADD TO COMPARE](#) [EMAIL](#)

If your customer tries to exceed set product minimum price, the extension will show an error to your customer for changing entered amount.

Once customer have entered price above set minimum price, the extension will allow your customers to add product to their shopping and checkout at their convenience.

5. Deactivation of Extension in Case of Emergency

- Manually delete all the files and content from following folders in your Magento root:
 - ✓ var/cache/*
 - ✓ var/session/*
- Make sure you've uploaded all files from the downloaded package.
- Go to **app/etc/modules/Magecomp_Customprice.xml** and replace **<active>>true</active>** with **<active>>false</active>**
- Then repeat Step 1 and if something goes wrong, please contact us at support@magecomp.com

6. FAQs

- **What if I get "Access denied" error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.
