1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding Magento Extension Installation, Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores** → **Configuration** to configure the extension for use.

The screenshot shows the Magento Configuration page for the Easy Coupon Manager extension. The page title is "Configuration". In the top right corner, there is a notification bell and a user profile icon labeled "easycouponman...". Below the title bar, there is a "Store View" dropdown menu set to "Easy Coupon Manager" with a help icon. A "Save Config" button is located in the top right. The main content area shows the "Easy Coupon Manager" extension configuration. The extension name "Easy Coupon Manager" is highlighted with an orange box. To its right, the status is set to "Enable" in a dropdown menu, also highlighted with an orange box. A tooltip or label "Enable extension from here" is visible next to the dropdown menu.

- **Easy Coupon Manager:** Enable or disable extension from here.

3. Backend Grid to Manage Coupons:

Using this grid, you can manage locations such as country, city as well as zip codes from which you want to accept orders. You can use star to include all zip code in case if needed.

4. Coupons List in Frontend Shopping Cart Page

Once you have setup all the configuration, the extension will showcase all the enabled coupon code in frontend shopping cart page.

The screenshot displays a shopping cart interface. At the top, a box highlights the text "Coupon code dropdown in Frontend Checkout Page". The main cart area contains a table with the following items:

Item	Price	Qty	Subtotal
 Easy Coupon Manager Product1	\$1,000.00	3	\$3,000.00

Below the table, there is an "Apply Discount Code" section with an input field for the discount code and an "Apply Discount" button. A list of active coupons is shown below:

- GET30**
Purchase your favourite Magento Extension & Save Up to 30% OFF.
* Terms and Conditions [Apply Now](#)
- MAGENTO20**
Buy any of our Magento Service & get FLAT 20% OFF.
* Terms and Conditions [Apply Now](#)

An orange box highlights the "Apply Now" button for the GET30 coupon, with an arrow pointing to it and the text "Select coupon code from here". To the right, a "Summary" panel shows the subtotal and order total as \$3,000.00, along with a "Proceed to Checkout" button and a link for "Check Out with Multiple Addresses". An "Update Shopping Cart" button is located at the bottom right of the cart area.

5. Deactivation of Extension in Case of Emergency

- Go to `app → etc → config.php` and find `'Magecomp_Cancelorder=> 1`, and replace 1 with 0.
- If something goes wrong, please contact us at support@magecomp.com

6. FAQs:

- **What if I get "Access denied" error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.
