

# Magento 2 Facebook Shop

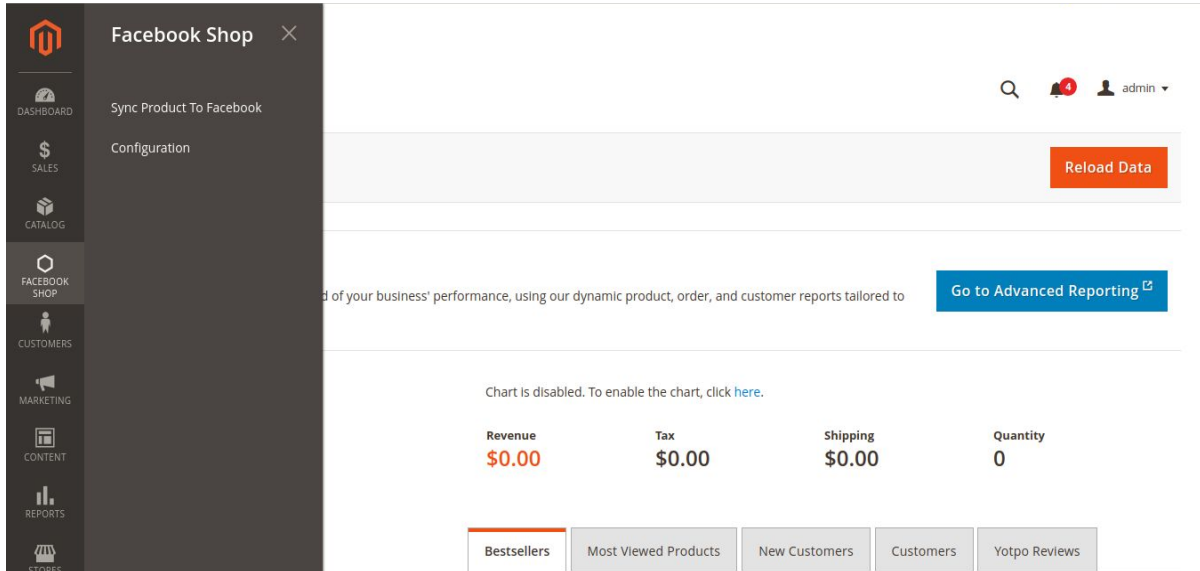

Magento 2 Facebook Shop by MageComp will convert your Facebook into Shoppable Facebook. It equally helps in tagging your products in the posts and stories from where your friends will grab the products in just one click directly from Facebook.

## Table of Content

1. Configuration
2. Setup Wizard
3. Facebook Shop

## 1. Configuration

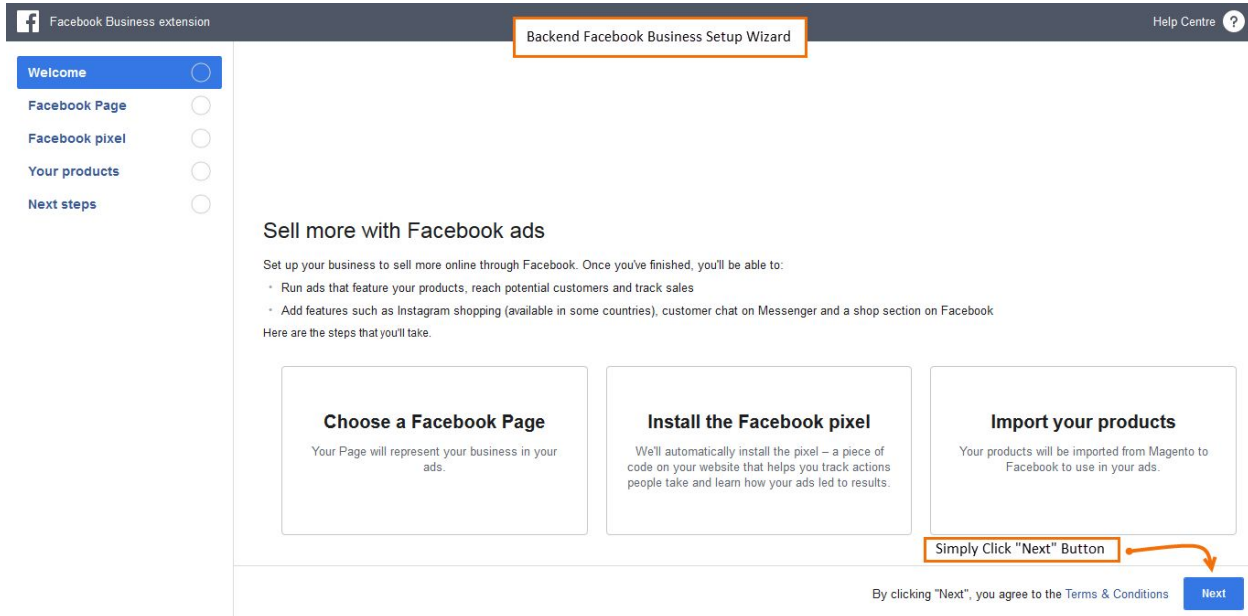

Once the extension is installed successfully, go to **Stores** > **Configuration** to configure the extension for use.

Revenue	Tax	Shipping	Quantity
\$0.00	\$0.00	\$0.00	0

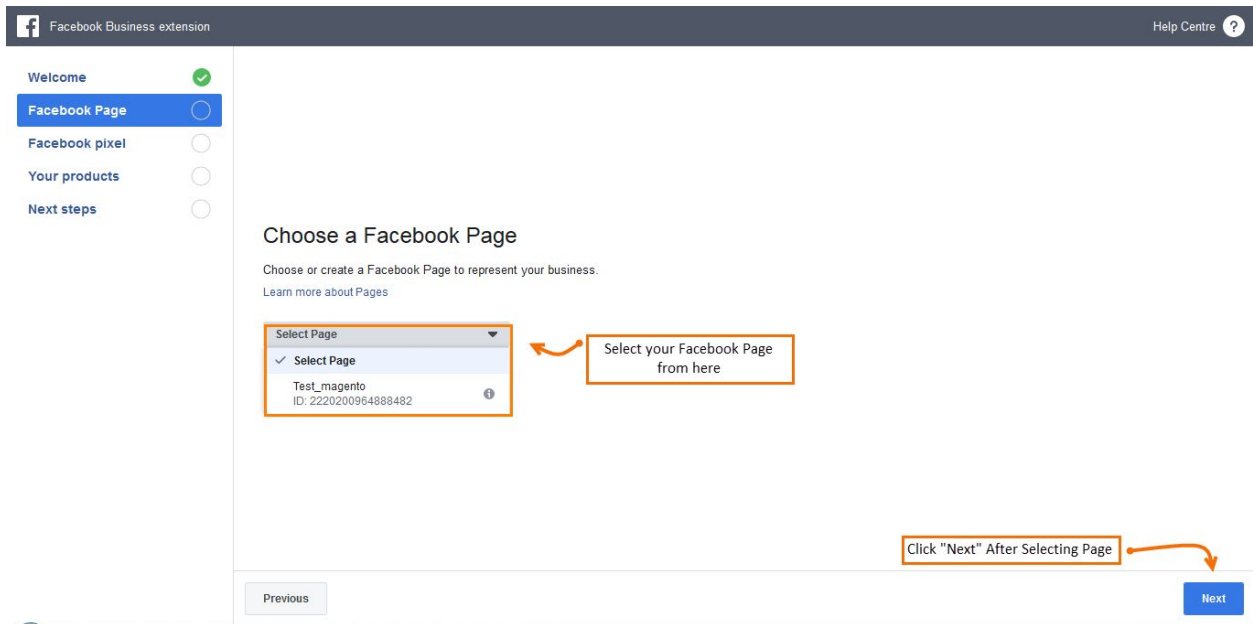

## 2. Setup Wizard

Firstly, tap on the “Get Started” button, the module will redirect to Facebook Business Setup Wizard in a fresh window.

Simply Click "Next" Button

Now, Tap on the "Next" button after you complete reading all the features provided by Facebook Business. Choose your Facebook page to connect with your store.

### Install the Facebook pixel

We'll automatically install a pixel on your website. The pixel helps track the actions that people take on your website, build an audience of people who are more likely to make a purchase and understand how your ads led to results.

Previous Next

Once you perform the above step you will display a number of products and options for syncing your Magento 2 store to catalog with Facebook page shop.

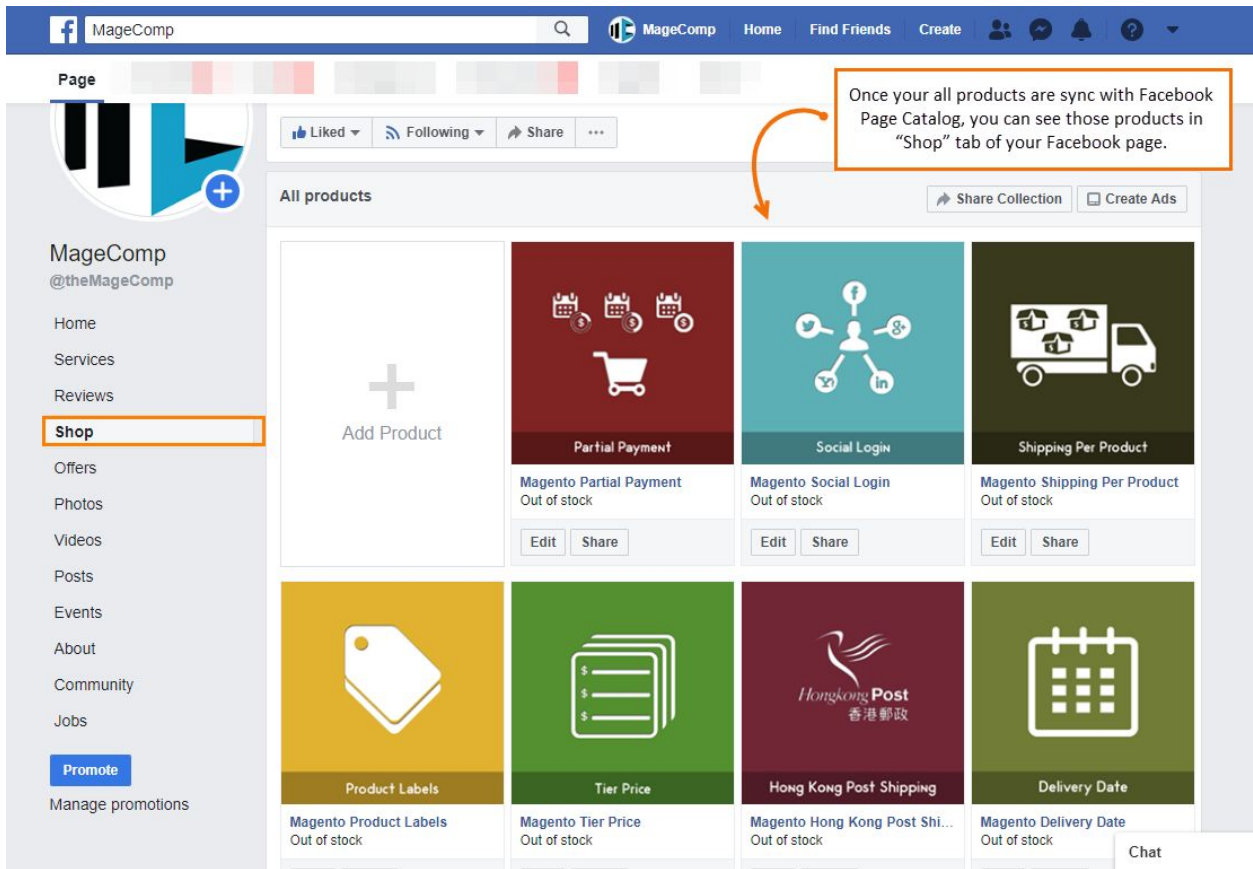

At last, your catalog will be uploaded to the server of facebook. After that you can view your products on Facebook Shop for tagging the products to Facebook Stories and Posts.

After all this configuration you will be automatically redirected to the extension page in your Magento 2 store.

### 3. Facebook Shop

After completing the above implementation you can view all your products on Facebook Shop Page.
