

Magento 2 Product Animated GIF

Magento 2 Product Animated GIF extension by MageComp supports the animated GIF images of your product to upload in your Magento 2 store without losing animation.

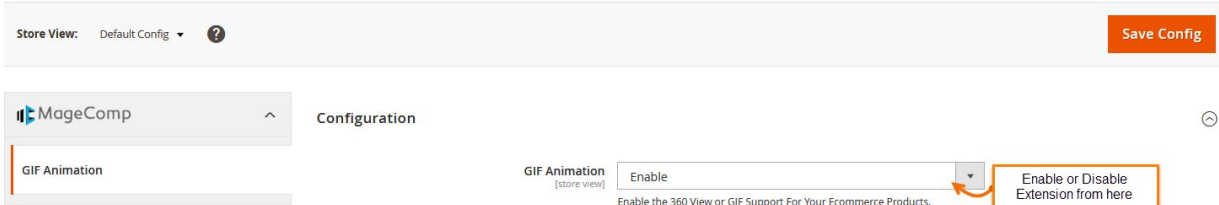

Table of Content

1. Configuration.
2. Upload product image from Backend.
3. Display product image Frontend.

1. Configuration

Once the extension is installed successfully, go to **Stores** \square **Configuration** to configure the extension for use.

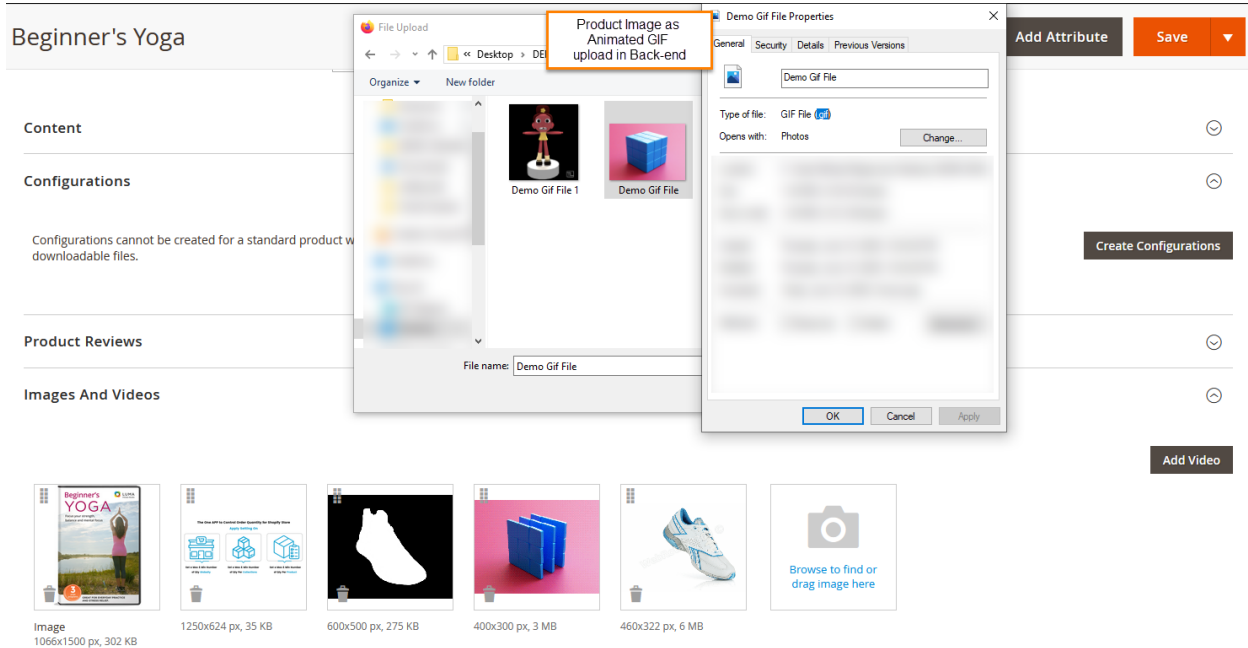

Configuration

The screenshot shows the Magento configuration interface. At the top, there is a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. Below this, the 'MageComp' extension is selected in the left sidebar. The main configuration area shows the 'GIF Animation' setting, which is currently set to 'Enable'. A callout box with an orange border and arrow points to the dropdown menu, containing the text 'Enable or Disable Extension from here'. Below the dropdown, a note reads: 'Enable the 360 View or GIF Support For Your Ecommerce Products.'

Enabled: Enable or Disable the extension from here. Set it as enabled to use the features of the extension.

2. Upload product image from Backend.

Deactivation of Extension in Case of Emergency:

- Go to app etc config.php and find 'Magecomp_Webpimages' => 1, and replace 1 with 0.
- If something goes wrong, please contact us at support@magecomp.com
- If the extension is installed using composer from Magento Marketplace, then you can disable the extension by running the below command.
- `bin/magento module:disable Magecomp_Webpimages`
