1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding [Magento Extension Installation](#), Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Store → Configuration** to configure the extension for use.

- **Enabled:** Option to enable or disable extension.
- **Shipping Title:** Set title to display in store frontend.
- **Shipping Method Name:** Set shipping per product method name from here.
- **Shipping Cost:** You can set default shipping cost from here.
- **Displayed Error Message:** Set custom message to display for unavailability of shipping method.

SALES Shipping Per Product

Shipping Methods

Enabled [website] Yes **Enable extension from here**

Title [store view] Shipping Per Product Charge } **Enter Shipping method name & title to show on frontend**

Method Name [store view] Shipping Per Product

Shipping Cost [website] 10 **Enter default shipping cost**

Displayed Error Message [store view] This shipping method is not available. To use this shipping method, please contact us. **Enter error message to show on frontend for shipping method unavailability**

- **Ship to Applicable Countries:** Enable shipping per product method for all countries or specific countries as per need.

- **Ship to Specific Countries:** If you want to enabled shipping per product method for specific countries you need to make selection of countries from here.
- **Sort Order:** Enter sort order to display on top.

The screenshot shows a configuration interface for shipping. It includes two dropdown menus: "Ship to Applicable Countries" (set to "All Allowed Countries") and "Ship to Specific Countries" (showing a list of countries like Afghanistan, Åland Islands, Albania, etc.). Below these is a "Sort Order" input field. Two callout boxes with orange borders and arrows point to the "All Allowed Countries" dropdown and the "Sort Order" field, with text: "Enable shipping per product charges to all countries or select countries to allow shipping method from here." and "Set sort order if needed".

3. Product Specific Shipping Cost

You can find an option to set product specific shipping cost by navigating to store backend catalog page.

The screenshot shows the "Backend Product Details" page for "Order on Whatsapp Simple Product". The page has a breadcrumb "Backend Product Details" at the top. Below the product name, there are navigation buttons: "Back to register or connect an account", "Add Attribute", and "Save". The page is divided into sections: "Design", "Schedule Design Update", "Gift Options", "Shipping Per Product", and "Downloadable Information". The "Shipping Per Product" section is expanded, showing a "Shipping Per Product Cost" input field with the value "\$ 5". A callout box with an orange border and arrow points to this field, with text: "Option to set product specific shipping charge".

4. Shipping Method on Store Frontend

Once you have configured extension properly from the backend, whenever you customer add any products to cart and navigate to Shopping cart for Checkout, your customer will not able to see Shipping per product method on store frontend depending on address they have used. Also, the charges will be automatically added to subtotal.

6. Deactivation of Extension in Case of Emergency

- Manually delete all the files and content from following folders in your Magento root:
 - ✓ var/cache/*
 - ✓ var/session/*
- Make sure you've uploaded all files from the downloaded package.
- Go to `app/etc/modules/Magecomp_Shippingperproduct.xml` and replace `<active>>true</active>` with `<active>>false</active>`
- Then repeat Step 1 and if something goes wrong, please contact us at <https://magecomp.com/support/>

7. FAQs

- **What if I get "Access denied" error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.

Thank You!
