3. [Delete Account Option on Store Frontend](#)
4. [Deactivation of Extension in Case of Emergency](#)
5. [FAQs](#)

## 1. Configuration

Once you have successfully installed the extension, go to **Stores → Configuration** to configure the extension for your use.

- **Delete Customer:** Choose option to enable or disable extension from here.
- **Delete Account Notice:** Add your detailed notice regarding the information that will be deleted once customer decided to remove their account.
- **Delete Account Confirmation:** Add message to confirm account deletion process before deleting their account.

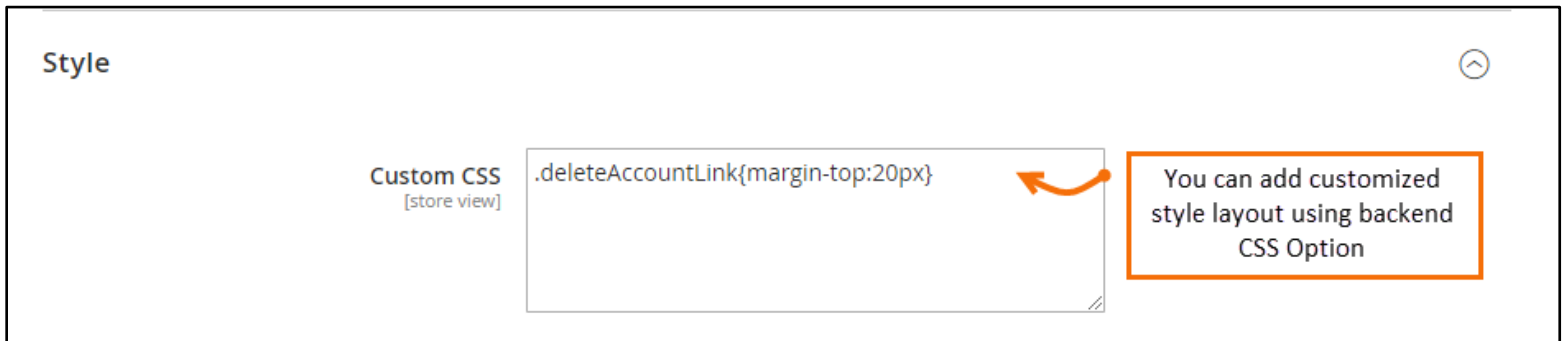

The screenshot shows the configuration page for the 'Delete Customer' extension. At the top, there is a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. The left sidebar shows the 'Delete Customer' menu item highlighted. The main content area is titled 'Delete Customer' and contains three configuration sections:

- Delete Customer:** A dropdown menu is set to 'Enable'. An orange box highlights this dropdown, with an arrow pointing to it from a callout box that says 'Enable extension from here'.
- Delete Account Notice:** A text area contains the following text: 'As per the GDPR Law, we have added the feature so you can delete your account with personal information any time. Please Note, The Account is not restorable so the action you perform cannot be undone or restored later.' Below this text is a smaller line of text: 'By Adding Text Here Notify Your Customer that All the information and Activities that are Stored in Database Will be Erased.' An orange box highlights the text area, with an arrow pointing to it from a callout box that says 'Add notice to display before customer proceed to delete their account, regarding information to be deleted'.
- Delete Account Confirmation:** A text area contains the message 'Do you really want to Delete this Account?'. An orange box highlights this text area, with an arrow pointing to it from a callout box that says 'Add Confirmation Message'.

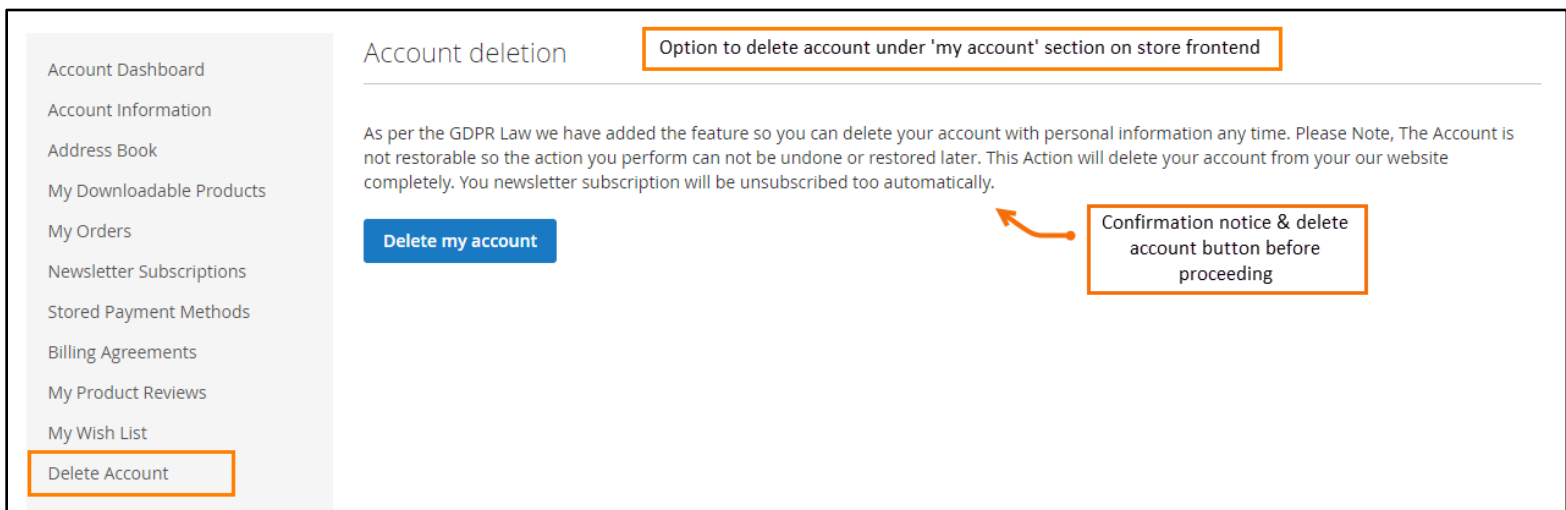

## 2. Customized Style Layout

Once you enabled and configure extension, you will find another option to add CSS style sheet class to give theme styled look and feel.

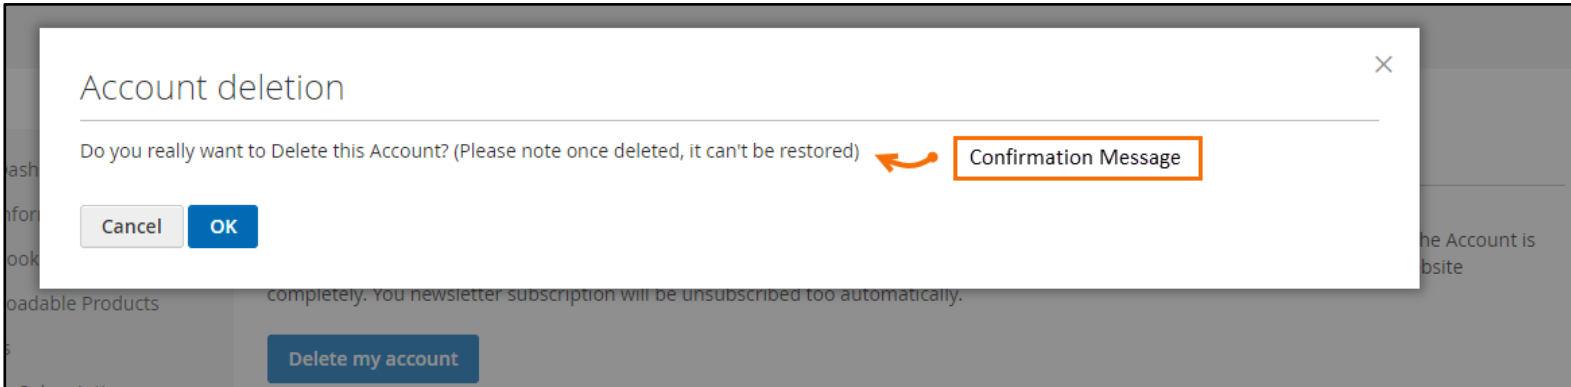

## 3. Delete Account Option on Store Frontend

Once you have properly configured the extension, you can see delete account option under the hood of customer account section.

- **Delete account confirmation message:** The extension will display Delete account confirmation message set from backend

#### 4. Deactivation of Extension in Case of Emergency

- Go to `app` → `etc` → `config.php` and find '`Magecomp_Deletcustomer`' => `1`, and replace `1` with `0`.

If something goes wrong, please contact us at [support@magecomp.com](mailto:support@magecomp.com)

- If extension is installed using composer from Magento Marketplace, then you can disable the extension by running below command.

```
bin/magento module:disable Magecomp_Deletcustomer
```
